MAYOR'S FOREWORD

We take this opportunity to recognize the release of 2011 Census results as they relate specifically to our municipal area. That they serve as an instrument to measure the progress made by ourselves as public representatives of the new order. But, also, that they serve as baseline upon which forward looking programmes can be based upon.

This IDP has been crafted to deal with such development gaps and backlogs from Census 2011 and further to assist Lepelle-Nkumpi to find space and play its role in realizing the objectives of both the MDG and NDP. We have committed ourselves to jerking up our programmes of infrastructure development and rehabilitation; and local economic development.

We have recognized that our planning happens locally within a Provincial and National environment. We will work with both spheres of government in fast tracking service delivery to push back the triple challenges of unemployment, poverty and inequality. We have recognized the improvements made by Province in aligning our IDP's planning process with its annual operational planning and for having taken us through all its planning activities. We eagerly await translation of this planning into integration of service delivery during projects implementation.

Lepelle-Nkumpi Municipality takes pride in its active citizenry who engaged us robustly during the IDP/Budget Imbizos. We have taken the inputs seriously and factored them in our planning and budgeting. During these meetings we also presented performance indicators and particular performance targets for the next MTEF period. We will use these as a framework for reporting and upon which our performance will be measured and monitored.

The 2013/14 IDP/Budget is to us a viable plan that was developed with appreciation of the institutional challenges facing us and the capacity we have as an organization in dealing with the massive programme of service delivery. We have prioritized our projects owing to our approved SDF and the LEGDS for growth points in our area, provision of basic services to deprived wards and where the little we have can make a meaningful impact and spiral other secondary development activities. We will approach our implementation with cross-cutting principles of job creation in all our infrastructure projects, environmental sustainability and mainstreaming of previously marginalized groups to the extent possible and legislation allowing.

We thank members of the public in all our wards and organized formations for the vigour through which they participated and advised us in the compilation of this IDP.

HER WORSHIP: MAYOR VERONICA MODILE PHAAHLA

EXECUTIVE SUMMARY: MUNICIPAL MANAGER

Lepelle-Nkumpi is one of the five local municipalities within the Capricorn District Municipality in Limpopo Province and is located in the southern part of Capricorn District. The municipality is pre-dominantly rural with a total population of 230 350 people. It area covers 3,454.78 km², which represents 16% of the District's total land area and is divided into 29 wards which comprise a total of 93 settlements. About 95% of its land falls under the jurisdiction of Traditional Authorities.

Huge service delivery backlogs (e.g. water, roads, refuse removal, housing) plus ageing infrastructure that need to be repaired remain big problem for the municipality. And this is compounded by lack of funds/revenue and high levels of poverty and unemployment. However, progress has been made in some aspects as all villages/areas have been provided with electricity (i.e. 92% of total households) and 75% of these households having access to clean portable water at RDP standard.

Opportunities for agriculture, mining, retail and tourism exist owing to natural resource base for farming and endowment of precious metals like platinum, diamond and chrome and municipality's proximity to Polokwane and strategic roads. Municipality also owns a portion of land where development is fully guided by it, which is at Lebowakgomo Township.

Given the current levels of development and challenges identified, Lepelle-Nkumpi will strive to reduce unemployment and poverty that enfeebles its communities and develop and refurbish infrastructure for provision of basic services. This IDP will also help increase revenue base and collection; improve administrative systems and the negative audit opinion to a positive one.

During the public consultation processes, the medium term performance indicators and targets were presented to community members, and this will serve as the basis for performance evaluation and monitoring.

The 2013/14 IDP was compiled through broad stakeholders' consultation and is informed by desktop analysis of status quo using the Census 2011 results and CDM/UNILIM 2011 Survey and the outcomes of such community consultation meetings that council had with its constituencies. Internally, Executive Committee of Council has been responsible for development of the IDP working with other committees of council. In this instance Exco managed to prioritise and sequence projects for budget allocations in line with its political mandates and community needs raised during public consultation meetings.

A. THE PLANNING PROCESS

1. INTEGRATED DEVELOPMENT PLANNING

Under the new Constitution local government has a new, expanded, role to play. In addition to the traditional role of providing services, municipalities must now lead, manage and plan for development and also play an active role in social and human development. The integrated development planning process is meant to assist council to arrive at balanced decisions on issues of municipal budgets, provision of basic infrastructure, land management, social and economic development and institutional transformation. IDP is essentially a comprehensive strategic business plan for the municipality over short and medium term.

It is essential to spend the limited council resources on the key development priorities of the local community.

2. LEGAL AND POLICY CONTEXT

2.1. THE CONSTITUTION

The Constitution of the Republic of South Africa outlines the kind of Local Government that is needed for the country. According to Section 152 and 153 of the Constitution, Local Government is in charge of the development process in municipalities and in charge of municipal planning. Its duties are;

- a) To ensure sustainable provision of services;
- b) To promote social and economic development;
- c) To promote a safe and healthy environment;
- d) To give priority to the basic needs of communities; and
- e) To encourage involvement of communities.

2.2. THE MUNICIPAL SYSTEMS ACT, 2000

The following sections are of specific importance:

Section 25(1): *The municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality ...*

Section 26: *An integrated development plan must reflect:*

- (a) *The municipal council's vision*
- (b) *An assessment of the existing level of development in the municipality,*
- (c) *The council's development priorities and objectives for its elected term,*
- (d) *The council's development strategies*
- (e) *A spatial development framework*
- (f) *The council's operational strategies;*
- (g) *A financial plan, which must include a budget projection for at least the next three years; and*
- (h) *The key performance indicators and performance targets*

The IDP must be compatible with National and Provincial development plans and planning requirements.

2.3. THE DEVELOPMENT FACILITATION ACT, 1995

The Development Facilitation Act, 1995 (DFA) provides specific principles, processes and procedures for land development and seeks to enforce and effect measures that facilitate speedy implementation of development programme.

2.4. THE WHITE PAPER ON DEVELOPMENTAL LOCAL GOVERNMENT

The White Paper on Developmental Local Government puts forward a vision of a developmental local government which centres on working with local communities to find sustainable ways to meet their basic needs and improve the quality of their lives. The following are the four characteristics of this developmental local government;

- Municipal powers and functions are exercised in a manner which maximises their impact on social and economic growth
- Playing an integrating and coordinating role to ensure alignment between all government spheres and private sector investment within the municipal area
- Democratising development
- Building social capital through providing community leadership and vision and seeking to empower marginalised and excluded groups within the community

2.5. THE MUNICIPAL FINANCE MANAGEMENT ACT, No. 56, 2003

The Municipal Finance Management Act, 2003 (Act No. 56 of 2003) makes mandatory provisions that relate to financial management of municipalities. The objective of the Act is to secure sound and sustainable management of the fiscal and financial affairs of municipalities and municipal entities by establishing norms and standards for budgetary and financial planning processes and the coordination of those processes with those of the other spheres of government, amongst others.

2.5. THE MUNICIPAL STRUCTURES ACT No. 117, 1998

The Municipal Structures Act, 1998 (Act No. 117, 1998) provides for the establishment of municipalities in accordance with the requirements relating to categories and types of municipality. The Act also provides division of functions and powers between district and local municipalities upon which planning shall be premised.

2.6. NATIONAL SPATIAL DEVELOPMENT PERSPECTIVE

The National Spatial Development Perspective (NSDP) is 'A clearly articulated set of spatial priorities and criteria which is one of the mechanisms by which to guide government choices about investment spending.' Such a set of spatial priorities introduces consistency and rationality in planning and provides a focal point and a strategic basis for focusing government action, weighing up trade-offs, and linking the strategies and plans of the three spheres and agencies of government. The NSDP has as its first principle that economic growth is a pre-requisite for the achievement of other policy/development objectives.

2.7. NATIONAL DEVELOPMENT PLAN

The objectives of the plan are the **elimination of poverty** and the reduction of inequality through

- **Uniting South Africans** of all races and classes around a common programme to eliminate poverty and reduce inequality
- **Citizens to be active in their own development**, in strengthening democracy and in holding their government accountable
- **Raising economic growth**, promote exports and make the economy more labour absorbing
- **Focusing on key capabilities** of both people and the country
 - Capabilities include skills, infrastructure, social security, strong institutions and **partnerships both within the country and with key international partners**
- Building a **capable and developmental state**
- **Strong leadership** throughout society to work together to solve our problems

This NDP sets jobs, education and a capable and developmental state as the highest priorities.

Key targets of the plan

- Employment: 13 million in 2010 to 24 million in 2030.
- Raise income from R50 000 a person to R120 000.
- Increase the quality of education so that all children have at least two years of preschool education and all children in grade 6 can read, write and count.
- Establish a competitive base of infrastructure, human resources and regulatory frameworks.
- Reduce poverty and inequality by raising employment, bolstering productivity and incomes, and broadening the social wage.
- Ensure that professional and managerial posts better reflect the country's demography
- Broaden ownership to historically disadvantaged groups.
- Provide quality health care while promoting health and well-being.
- Establish effective, affordable public transport.
- Produce sufficient energy at competitive prices, ensuring access for the poor, while reducing CO₂ per unit of power.
- Ensure that all people have access to clean running water in their homes.
- Make high-speed broadband internet available to all at competitive prices.
- Realise a food trade surplus, with one-third produced by small-scale farmers or households.
- Entrench a social security system covering all working people, with social protection for the poor and other groups in need, such as children and disabled persons.
- Realise a developmental, capable and ethical state that treats citizens with dignity.
- Ensure that all people live safely, with an independent and fair criminal justice system.
- Broaden social cohesion and unity by making use of the talents and resources of all South Africans, while taking firm steps to redress the inequities of the past.
- Play a leading role in continental development, economic integration and human rights.

2.8. NEW GROWTH PATH

- ❑ The New Growth Path is a framework which seeks to:
 - Guide government on how to achieve job creation goal
 - Has identified areas where employment creation is possible, both with economic sectors and cross cutting activities.
- ❑ The NGP analyses the policies and institutional developments required to take advantage of employment friendly economic policy packages and opportunities.
- ❑ The New Growth Path aims to:
 - Address high unemployment and inequality
 - Identify key job drivers
 - Identify what is needed to achieve jobs
 - Identify key steps in facilitating broader growth as a means of job creation
 - Depart from consumption to production driven economy

Indicators of success for the New Growth Path are

- **Jobs** – Number and quality of jobs created
- **Growth** – The rate, labour intensity and composition of economic growth
- **Equity** – Lower income inequality and poverty
- **Environmental Outcomes**

Strategies of the NGP

- To deepen the domestic and regional market by growing employment, increasing incomes and undertaking other measures to improve equity and income distribution, and
- To widen the market for South African goods and services through a stronger focus on exports to the region and other rapidly growing economies.

2.9. NATIONAL ENVIRONMENTAL MANAGEMENT ACT (Act 107 of 1998).

Section 2 of NEMA contains National Environmental Management Principles, which apply to the 'actions of all organs of state that may significantly affect the environment'. These principles must guide decisions concerning the protection of the environment.

2.10. NATIONAL ENVIRONMENTAL MANAGEMENT ACT: AIR QUALITY (Act 39 of 2004)

According to the Act, the national, provincial environmental departments and local authorities are separately and jointly responsible for the implementation and enforcement of various aspects of the Air Quality Act. Each of these spheres of government is obliged to co-operate with each other and co-ordinate their activities through mechanisms provided for in the National Environmental Management Act in order to protect the air quality.

2.11. NATIONAL ENVIRONMENTAL MANAGEMENT ACT: WASTE ACT (Act 59 of 2008)

In fulfilling the rights contained in section 24 of the Constitution, the State, through the organs of state responsible for implementing this Act, must put in place uniform measures that seek to reduce the amount of waste that is generated and, where waste is generated, to ensure that waste is re-used, recycled and recovered in an environmentally sound manner before being safely treated and disposed of.

2.12. DISASTER MANAGEMENT PLAN

Disaster Management Act 57 of 2002 provides for an integrated and co-ordinated disaster management policy that focuses on preventing or reducing the risk of disasters, mitigating the severity of disasters, emergency preparedness, rapid and effective

response to disasters and post-disaster recovery. The Act provides for each municipality to prepare a disaster management plan and to further coordinate its implementation with other role players.

However, the District municipality is primarily responsible for the coordination and management of local disasters, in case they occur. As such, the District must develop a Disaster Management Framework for all of its local areas detailing how it will deal with coordination its work. Even so, disaster management still remains a cross-cutting matter for all spheres, extending from National and Provincial government.

3. OTHER LEGISLATIVE AND POLICY TRENDS

3.1. MUNICIPAL PROPERTY RATES ACT

The Municipal Property Rates Act of 2004 aims:

- to regulate the power of a municipality to impose rates on property;
- to exclude certain properties from rating in the national interest;
- to make provision for municipalities to implement a transparent and fair system of exemptions, reductions and rebates through their rating policies
- to make provision for an objections and appeals process.

3.2. THE LOCAL GOVERNMENT: MUNICIPAL PLANNING AND PERFORMANCE MANAGEMENT REGULATION

Municipal Planning and Performance Management Regulation of 2001 outlines the requirements for an IDP. Regulation 2(1) states that a municipality's Integrated Development Plan must at least identify:

- (a) Any investments initiatives in the municipality;
- (b) The institutional framework that includes the organogram;
- (c) Any development initiatives in the municipality, physical, social economic and institutional development;
- (d) All known projects, plans and programs to be implemented within the municipal area by any organ of state; and
- (e) The key performance indicators set by the Municipality.

3.3. LIMPOPO EMPLOYMENT GROWTH AND DEVELOPMENT PLAN

Limpopo Employment Growth and Development Plan (LEGDP) is an aggregate of tactical initiatives by the province designed to achieve structural changes in critical areas of the provincial economy. It assists the province to make strategic choices in terms of prioritising catalytic and high impact initiatives as a way of responding to the MTSF strategic thrusts.

LEGDP PROVINCIAL TARGETS

- Create 262 000 jobs by 2014
- GDP growth rate of 7.5 % by 2014
- Improve the Matric pass rate to 70% in 2011
- Halve HIV infection rate
- Increase the current life expectancy from 51 to 55 years for males and 56 to 60 for females

- Ensure a safe and free Limpopo
- Ensure increase in participation of Limpopo's citizens in sport

KEY ACTION PROGRAMMES

- Mining and Minerals Beneficiation
- Enterprise Development: SMME's and Cooperatives Development Programme
- Regional Economic Development and Integration Programme
- Public Infrastructure Investment Programme
- Water Infrastructure Development and Demand Management
- Agriculture and Rural Development Programme
- Education and Skills Development Programme
- Health Care Development Programme
- Safety and Security
- Environmental and Natural Resources Development Programme
- Corporate Governance
- ICT and Innovation Enabled Industries

PROVINCIAL GROWTH POINTS

- Both the LSDF & LEGDP affirm that Limpopo Urban Growth Nodes should be the focus areas for accelerating service delivery and sustainable human settlement.
- Overall, the LSDF identifies 17 Growth Points, while an implementation plan targets support to 10 Growth Points and of these prioritizes 3 x Pilot Focus Areas to provide good practice Integrated Development Planning, Vitality and Viability
- The target 10 x Growth Points Municipalities are: Polokwane, Elias Motsoaledi, Makhado, Lephalale, Greater Tubatse, Greater Tzaneen, Ba-Phalaborwa, Thabazimbi, Mogalakwena, and Ephraim Mogale.
- Musina and Lepelle Nkumpi have emerged as special growth and intervention areas and were added to the basket of priority growth points.

The priority 4 Growth Point Municipalities are:

- Lephalale - **Lephalale Development Forum**
- Greater Tubatse - **Greater Tubatse Development Forum**
- Musina/(Makhado) - **Musina- Makhado Corridor Development Forum**
- Polokwane

PGPs serve as regional hubs; thus creating enabling environment for regional integration.

3.4. EXPANDED PUBLIC WORKS PROGRAMME

The EPWP is a programme that seeks to ensure that public bodies like Municipalities formulate plans and budget that will draw significant numbers of the unemployed into productive work while provide them with training. Lepelle-Nkumpi is using the opportunity of labour intensive construction [LIC] method to carry out infrastructure, environment and Community Work's Programme under LED projects. The municipality has already launched a three year project for contractor learnership under NDPW-Vuk'uphilile.

3.5. PRESIDENTIAL OUTCOMES

The Cabinet Lekgotla had at its sitting on the 20-22 January 2010 adopted Twelve Presidential outcomes in order to accelerate service delivery. The President signed performance agreements with all 34 Cabinet Ministers based on these twelve outcomes with outputs. Of these outcomes, municipalities are mostly affected by:

- **Outcome 9:** A responsive, Accountable, Effective and Efficient Local Government System and;
- **Outcome 8:** Sustainable Human Settlements. All departments, agencies and spheres of government involved in the direct delivery process required to achieve an output, should be party to the agreement

3.6. Medium Term Strategic Framework:

This is a framework to guide government's programmes in the electoral mandate period (2009-2014)¹, can be summarised as follows:

Strategic Priority 1: Speeding up growth and transforming the economy to create decent work and sustainable livelihoods.

Strategic Priority 2: Massive programme to build economic and social infrastructure.

Strategic priority 3: Comprehensive rural development strategy linked to land and agrarian reform and food security.

Strategic Priority 4: Strengthen the skills and human resource base.

Strategic Priority 5: Improve the health profile of all South Africans

Strategic Priority 6: Intensify the fight against crime and corruption.

Strategic Priority 7: Build cohesive, caring and sustainable.

Strategic Priority 8: Pursuing African advancement and enhanced international cooperation.

Strategic Priority 9: Sustainable Resource Management and use.

Strategic Priority 10: Building a developmental state including improvement of public services and strengthening democratic institutions.

3.7. STATE OF NATION ADDRESS

The President has in 2011 announced a multi-year programme for job creation. In February 2012 he strengthened this by committing all spheres of government to massive infrastructure development for the year and beyond in order to stimulate economic growth that creates jobs. This was crystallised in February 2013 by announcement of adoption of National Development Plan as guiding tool for development in South Africa. This IDP will seek to provide meaningful contribution along those lines.

4. POWERS AND FUNCTIONS

Specific powers and functions were assigned to the Lepelle-Nkumpi Local Municipality in terms of Notice of Establishment (Notice No. 307) that was published in Provincial Government Notice No. 307 of 2000. The powers and functions are as follow:

Municipal Powers and Functions	Responsible Department
The provision and maintenance of child care facilities;	Community Services
Development of local tourism;	Planning and LED
Municipal planning;	Planning and LED
Municipal public transport;	Community Services
Municipal public works;	Community Services
Storm water management systems;	Infrastructure Development
Administer trading regulations;	Planning and LED
Provision and maintenance of water and sanitation;	Infrastructure Development
Administer billboards and display of advertisement in public areas	Community Services
Administer cemeteries, funeral parlours and crematoria;	Community Services
Cleansing;	Community Services
Control of public nuisances;	Community Services
Control of undertaking that sell liquor to the public;	Planning and LED
Ensure the provision of facilities for the accommodation, care and burial of animals;	Community Services
Fencing and fences;	Infrastructure Development
Licensing of dogs;	Community Services
Licensing and control of undertakings that sell food to the public;	Planning and LED
Administer and maintenance of local amenities;	Community Services
Development and maintenance of local sport facilities;	Community Services
Develop and administer markets;	Planning and LED
Development and maintenance of municipal parks and recreation;	Community Services
Regulate noise pollution;	Community Services
Administer Pounds;	Community Services
Development and maintenance of public places;	Community Services
Refuse removal, refuse dumps and solid waste disposal;	Community Services

Administer street trading;	Planning and LED
Provision of municipal health services.	Community Services

The division of powers and functions between the district municipalities and local municipalities were adjusted by the MEC for Co-Operative Governance in terms of Sections 16 and 85 of the Municipal Structures Act, 1998 and published in Provincial Gazette No. 878, dated 07 March 2003. The following district municipal powers and functions were transferred to Lepelle-Nkumpi Municipality:

Municipal Powers and Functions	Responsible Department
Solid waste disposal sites;	Community Services
Municipal roads;	Infrastructure Development
Cemeteries and crematoria;	Community Services
Promotion of local tourism; and	Planning and LED
Municipal public works relating to any of the above functions or any other functions assigned to the local municipality.	Community Services

5. THE REVIEW PROCESS

The MSA requires that municipalities implement their respective Integrated Development Plans and monitor and evaluate their "implementation" performance. Section 34 of the MSA deals with the review and amendment of the IDP:

"A Municipal council:

(a) must review its integrated development plan

(i) annually in accordance with an assessment of its performance measurements in terms of section 41; and

(ii) to the extent that changing circumstances so demand; and

5.1. ROLES AND RESPONSIBILITIES OF GOVERNMENT SPHERES

The Municipal Systems Act, 2000 requires both district and local municipalities to do integrated development planning. The IDP process requires that all role-players are fully aware of their own, as well as other role-players' responsibilities in the execution of the IDP process.

The roles and responsibilities of the various spheres of government and other relevant stakeholders for IDP review process are as follow:

The role of the national sphere of government is to provide a legal framework, policy guidelines and principles for sectoral, provincial and local government planning.

The role of the provincial sphere of government is to monitor the IDP process and to ensure that vertical/sector alignment;

District Municipality is also responsible to effect horizontal and vertical alignment of the IDP's of local municipalities,

The role of the local municipalities is to compile a 5 - year IDP aligned with other spheres of government.

5.2. INSTITUTIONAL ARRANGEMENTS

The following institutional framework is used in the IDP Review Process as briefly discussed here below;

Municipal Council (Elected Councillors)

- Considers and adopts the IDP/Budget review process plan; and

- Responsible for adoption of the IDP/budget

Executive Committee and the Mayor

- Manages IDP/Budget compilation
- Proposes sequencing and prioritisation of projects

IDP Steering Committee (Executive Management Plus Chairpersons of Clusters)

- Responsible for managing the process of reviewing the IDP

Management Committee

- Provides relevant technical, sectoral and financial information and support for the review process; and
- Translation of broad community issues into priorities into outcome based programs and projects.

Municipal Manager/ IDP Manager

- Responsible for daily coordination of the planning process; and
- Ensures that the planning process is participatory, strategic and implementation focused.

IDP Representative Forum (Civil Society Bodies, Business, Sector Departments)

- Represents the interests of various constituencies;
- Coordination and alignment in planning and service delivery; and

Ward Committees

- Facilitates identification and conceptualisation of community needs
- Monitors Project and Programme Implementation.

5.3. REVIEW ACTIVITIES

The IDP review process involves five critical phases, namely, the **Analysis, Strategies, Project, Integration and Approval phases**. Analysis of the socio-economic status, Census 2011 results and the outcomes of assessments by MEC for CoGHSTA's on previous IDP's, amongst others.

The review process for the development of this IDP was conducted as follows:

- Council approval of the review process plan was done on 10th August 2012
- Desktop data gathering for status quo analysis
- 29 Ward based consultation were conducted during the months of September, October and November 2012
- Council Executive Committee Strategic Planning Session on the 19th -20th March 2013
- IDP/Budget Stakeholders'Representative Forum on the 22nd May 2013

Public participation did take place as envisaged in the approved 2012/13 process plan.

B. ANALYSIS (STATUS QUO)

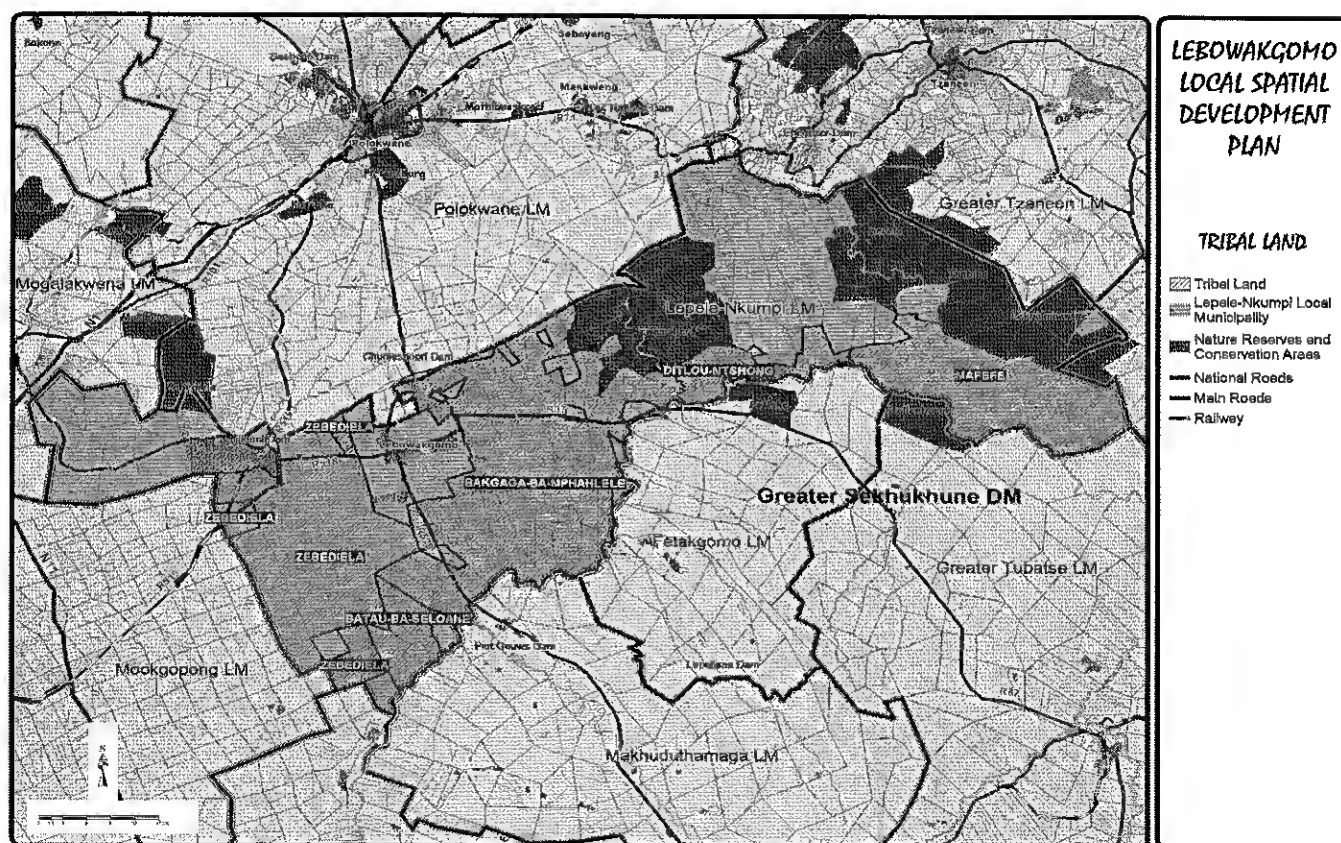

1. INTRODUCTION

The analysis phase looks into demographic and physical description of the municipality and its current levels of access to service delivery. It also analyses the spatial, institutional and socio-economic environment of the municipality.

2. DESCRIPTION OF MUNICIPAL AREA

Lepelle-Nkumpi is one of the five local municipalities within the Capricorn District Municipality in Limpopo Province and is located in the southern part of Capricorn District. The municipality is pre-dominantly rural with a population of approximately 230 350 people. It covers 3,454.78 km², which represents 16% of the District's total land area and is divided into 29 wards which comprise a total of 93 settlements. About 95% of its land falls under the jurisdiction of Traditional Authorities.

Map.1: Land Ownership

3. DEMOGRAPHIC PROFILE

3.1. POPULATION FIGURES

According to the Stats SA Census 2011 results, the municipality has an estimated population of 230 350 people with a total of 59 682 households and an average household size of 3.9.

Table.1. Demographics

Municipality	Population			No. of Households			Average Household Size		
	1996	2001	2011	1996	2001	2011	1996	2001	2011
Lepelle-Nkumpi	234926	227 970	230 350	44 397	51 245	59 682	5.2	4.4	3.9

Data Source: Census 2011

The population of Lepelle-Nkumpi has grown by 0.1, second fastest after Polokwane, during the last ten years after a sharp decline between 1996 and 2001 when its growth was slower than the rest in the District. The municipality is the second largest in the District with 18% of District population whereas Polokwane Municipality is the biggest and constitutes about 50% of the District population as depicted by the table below.

Table.2: Population Growth Rate-1996, 2001 and 2011

Municipality	Population				
	1996	2001	% Change	2011	% Change
Aganang	146 335	146 872	0.1	131 164	-1.1
Blouberg	158 751	171 721	1.6	162 629	-0.5
Lepelle Nkumpi	234926	227 970	-0.6	230 350	0.1
Molemole	107 635	109 441	0.3	108 321	-0.1
Polokwane	424 835	508 277	3.6	628 999	2.1
Capricorn	1 072 484	1 164 281	1.6	1 261 463	0.8

Data Source: Census 2011

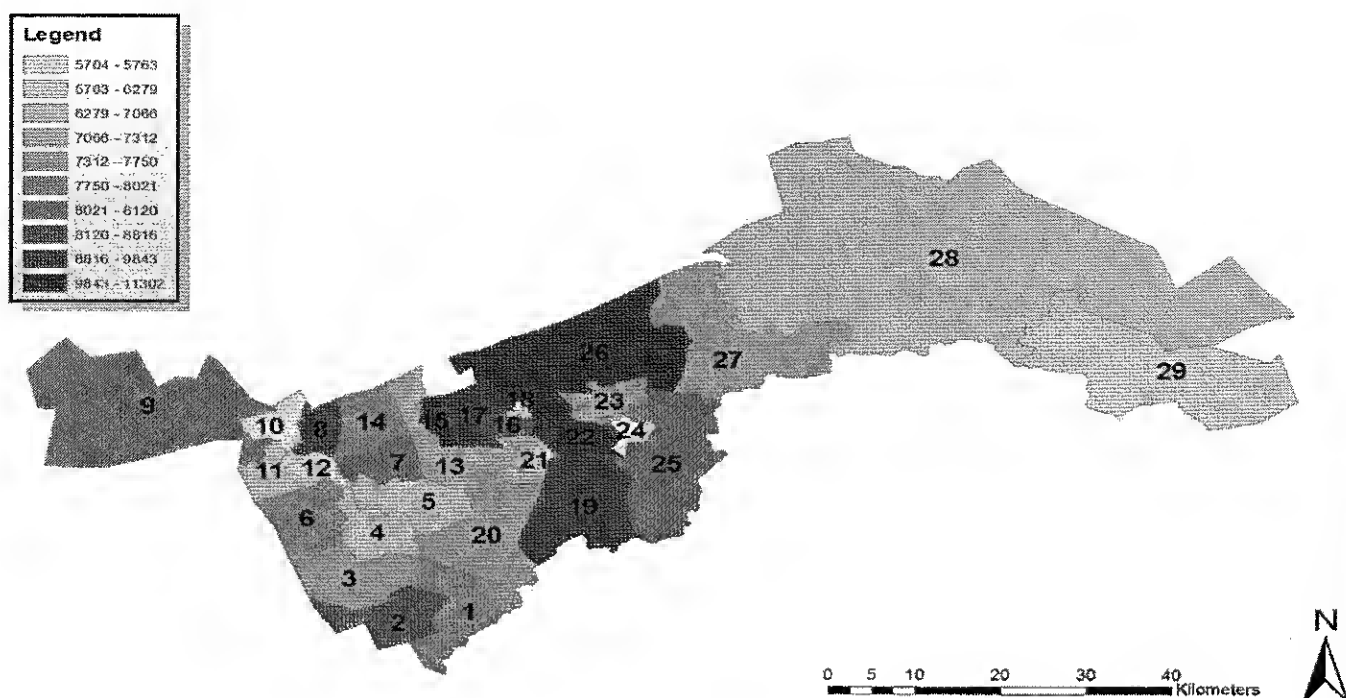

There are 29 wards in the municipality with an average size of 8000 people. Wards 22, 15 and 26 are actually the largest with a population size of more than 10000 each.

Table.3: Population distribution per ward

Ward	Population	Percentage	Ward	Population	Percentage
1	8 021	3.48%	2	8 697	3.78%
3	7 564	3.28%	4	6 758	2.93%
5	7 066	3.07%	6	7 940	3.45%
7	8 120	3.53%	8	9 656	4.19%

3.3. LEVEL OF EDUCATION

According to Census 2011, there is only 33% with matric and above qualifications, among people 20 years and older. Otherwise 67% has no matric- having left school at primary or secondary levels. There is an alarmingly high percentage of females without

schooling or with minimal education qualifications in the municipality and the District alike, even though there are still more women with matric and post matric qualifications.

Table.6: Distribution of the population aged 20 years and older by highest level of education attained and sex- 1996, 2001 and 2011

LOCAL SKILLS BASE

Literacy rates have increased over the years, providing labour resources that can take up employment opportunities above basic elementary occupations. The increased literacy levels may also, to some extent, have contributed to the increased employment rates in the region. The skills base for municipality is derived from local FET College, Nursing College, on-the-job training in the mines and those who go out to acquire qualifications outside the municipality, especially within the District and in Gauteng Province.

3.4. INCOME DISTRIBUTION

Limpopo Province is one of the poorest provinces in the country, with approximately 14% of households having no form of income, compared to the National level where this figure stands at 15%. Lepelle-Nkumpi Municipality has very high level of poverty, with more than 15% of households without any form of income as shown in the table below.

Table.7: Percentage annual household income distribution for Lepelle-Nkumpi, 2001, 2007 & 2011

Year	No income	R1-R4800	R4801-R9600	R9601-R19600	R19601-R38200	R38201-R76400	R76401-R153800	R153801 +
2001	32%	11%	25%	14%	8%	6%	3%	1%

4. SOCIAL INFRASTRUCTURE

4.1. HEALTH AND WELFARE FACILITIES

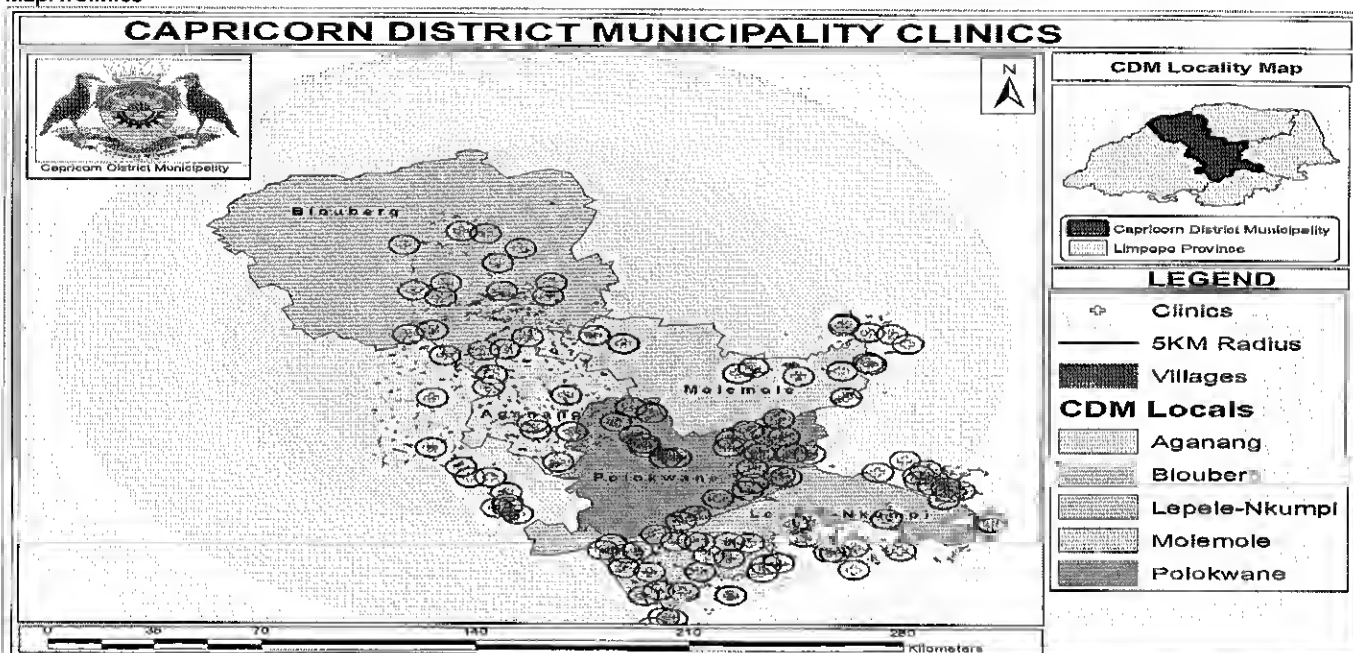

There are 25 public health facilities within the municipality (21 primary health care clinics, 1 health centre and 3 hospitals). Lebowakgomo Hospital is a District Hospital while Thabamopo Hospital is a Provincial Tertiary Hospital dealing mainly with mental health. Also, a private hospital is under construction at Lebowakgomo Township.

Table.14: Health facilities

Municipal Area	Hospitals	Health Centres	Clinics (PHC)	Mobile Clinics Teams
Lepelle-Nkumpi	3	1	21	9
Capricorn District	11	4	90	

Source: Limpopo Department of Health Report-2012

Map.4:Clinics

82828 grants are paid monthly by SA Social Security Agency (SASSA) in the municipal area, which is 21% of the total social grants issued within the district.

Table.15: Types of Social Grants Paid; Lepelle-Nkumpi and Capricorn District

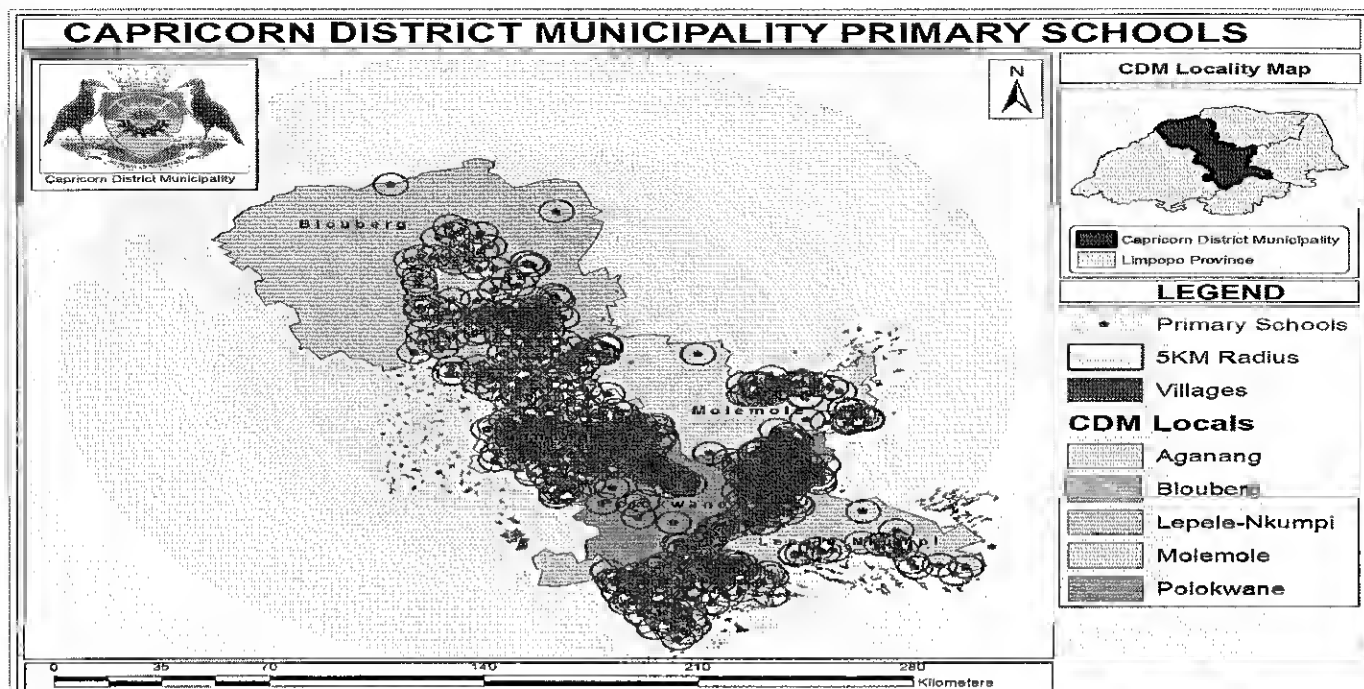

Social Grant	Lepelle-Nkumpi	Capricorn District
Old Age Pension	22312	94823
Disability	4242	22550
Child Support	55432	268032
Care Dependency	715	4306
Foster Care	20	506
Grant in Aid	107	585
Social Relief	0	240
Multiple Social Grant	0	1785
Total	82828	392827

Data Source: SASSA

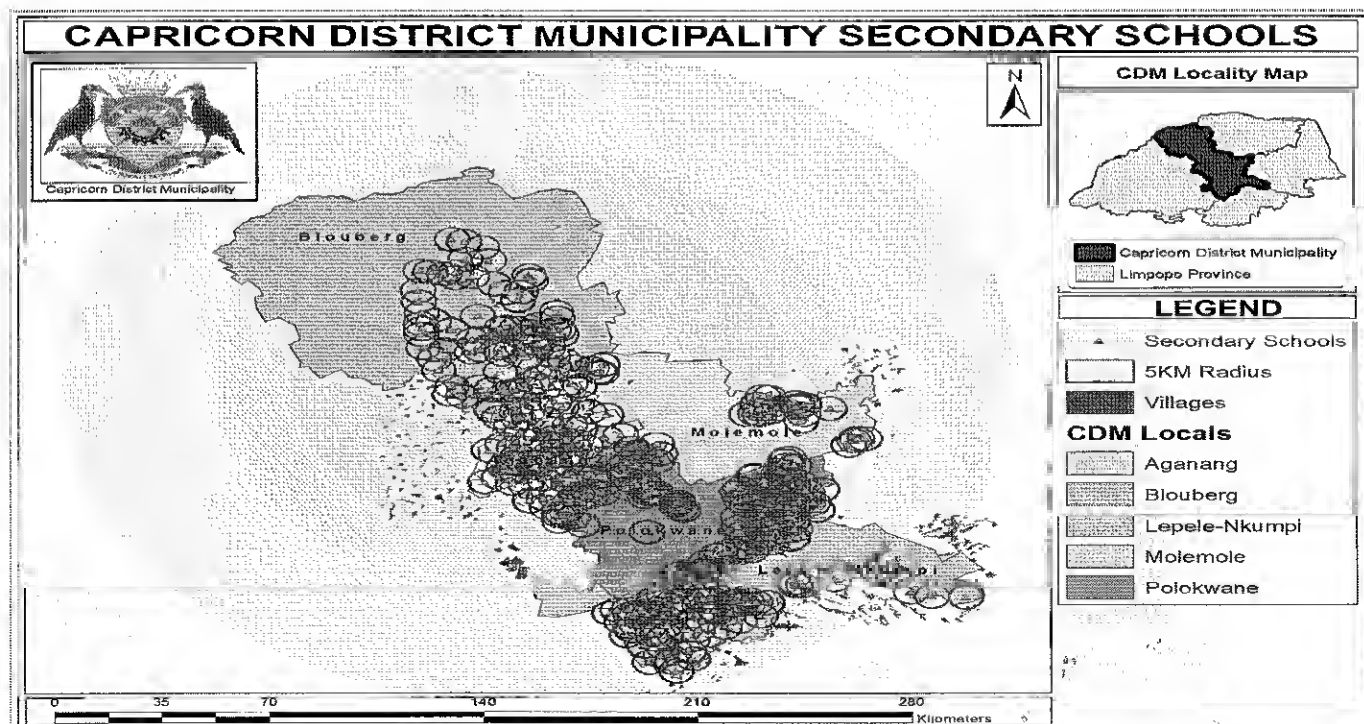

4.2. EDUCATIONAL FACILITIES

There are 115 primary schools, 81 secondary schools and 1 FET College within the Municipality (Limpopo Department of Education). At the moment the "learner/educator" ratios are well within the norms of the Department of Education, i.e. 1:40 for primary schools and 1:35 for secondary schools.

Map.5: Primary Schools

Map.6: Secondary Schools

4.3. SAFETY & SECURITY

4.3.1. Safety and Security Facilities

There are four police stations and one permanent magisterial court within the municipality. Magatle magistrate court is held twice a week as a satellite to Mokerong Magistrate Court.

Table.16: Safety and Security Facilities

Location	Police Stations	Satellite Police Stations	Mobile Centre	Trauma Centre	Victim support centre	Magistrate's Courts
Lepelle-Nkumpi	4	1	-	1	-	1

4.3.2. Traffic Police and Licensing

Municipality is running a licensing centre with Provincial Department of Roads and Transport. The aim is to finally see this function transferred to the municipality. There are eleven traffic officers who ensure traffic law enforcement and public road safety within the municipal area. The licensing division provides services for licensing of vehicles and drivers. There is a cattle pound where stray animals are impounded and owners penalized with a fine before they are returned, or otherwise they are auctioned to the public.

4.3.3. PUBLIC SAFETY STRATEGY

South African Police Services is the main measure for prevention of crime within the municipality. It is however assisted to a limited extend by Community Policing Forums which are generally unskilled, not active and having no resources to match the challenges around public safety. The municipality has approved an Integrated Public Safety Strategy in 2003 whose focus covers the following areas:

- Coordination: To facilitate the development and implementation of the strategy with other sectors- inside and outside government.
- Social crime prevention: Facilitate tapping of provincial and national grants to fund crime prevention activities and crime prevention campaigns

4.4 PUBLIC FACILITIES

4.4.1. HALLS

There are eleven community halls in the municipality at Mahlatjane, Mogodi, Lesetsi, Dithabaneng, Maijane, Mamaolo, Tooseng, Lebowakgomo Civic, Mehlareng, Hlakano and Moletlane. Maintenance of the halls was previously a challenge to municipality as they were transferred from the District while some of them still do not have furniture.

4.4.2. SPORTS AND CULTURE

There is a football stadium at Lebowakgomo Township with capacity to carry 10000 people. Attached to it are four tennis courts, netball court and softball diamond. Another football stadium is Nokotlou in Mafefe. Municipality has built a softball diamond in 2011 at Seleteng. Otherwise most people use undeveloped grounds for sporting activities.

There is a Cultural Centre with an art exhibition area, a gym with equipment, theatre and a museum hall. Two radio community stations are operating in the area; viz: Greater Lebowakgomo and Zebediela Community Radio stations. Otherwise people also listen to National and Regional radio stations like Thobela FM and Capricorn FM.

4.4.3. CEMETERIES AND PARKS

There is one cemetery that is administered by municipality which is situated in Lebowakgomo and the rest are in traditional authority areas and managed by them. The municipal cemetery is becoming full, and as such another site is being developed for burial purpose especially for use by Lebowakgomo residents. The municipal graveyard is looked after by the municipality whereas the others are being maintained by communities themselves. Five parks have been developed with equipment at Lebowakgomo Zone A, B, F, R and S.

4.4.4. OLD AGE FACILITIES

There are two facilities providing services to the aged, viz; Sekutupu Old Age Home and Kopano Umbrella, which are government-run and partially subsidized, respectively.

4.4.4. CHILD CARE FACILITIES

Table.17: Number of Child Care Facilities

Cluster	Total	%
Zebediela	29	26.61
Mafefe / Mathabatha	27	24.77
Lebowakgomo	8	7.33
Mphahlele	45	41.29
Total	109	100

4.4.5. GUEST HOUSES AND OTHER TOURISM FACILITIES

The following facilities are available within the municipal area for tourism leisure and accommodation;

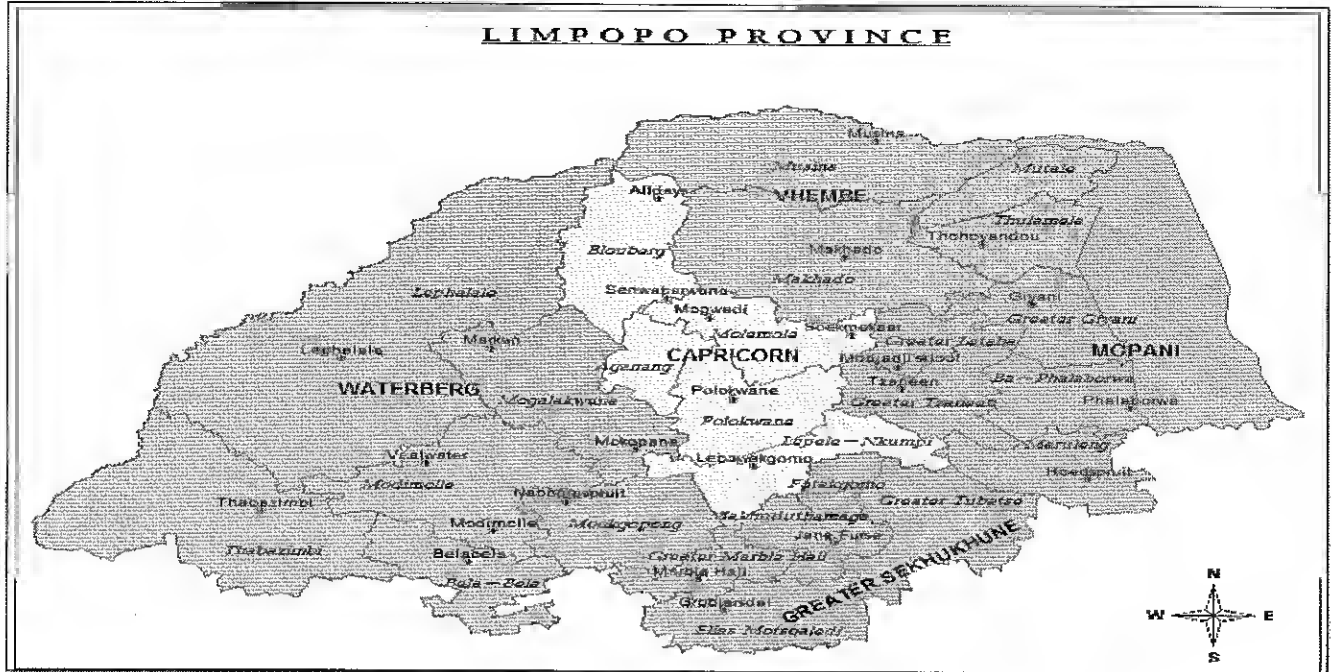

- Molopyane Guest House
- Alpha Guest House
- Mainline Lodge
- Molapo-Matebele Motel
- Zebediela Lodge
- Ngwanesho Guest House
- Mafefe Ivory Route
- Makapeng Picnic Site
- Zebediela Golf Estates
- Lekgalametse Game Reserve
- Bevaarskloof Mountains
- Nkumpi dam
- Maliming Lodge
- Mafefe tourism camp

5. SPATIAL ANALYSIS

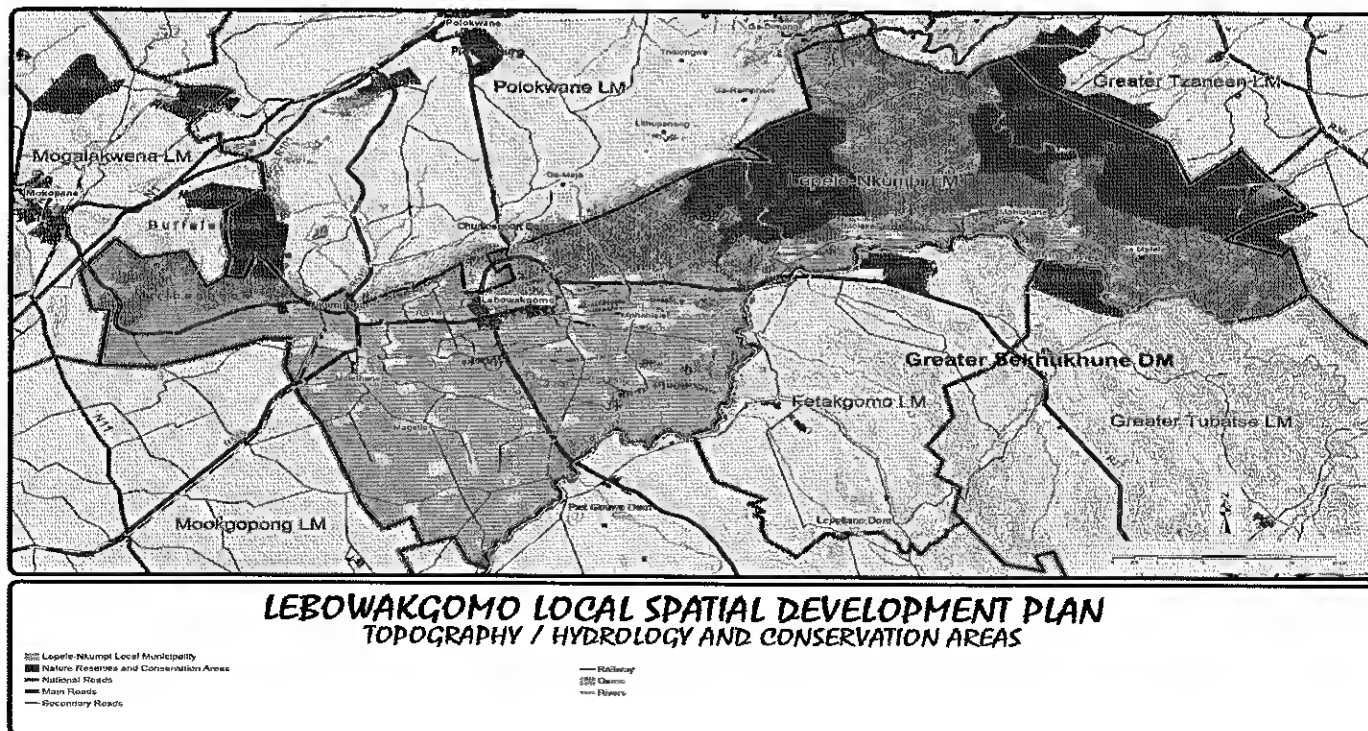

5.1. SPATIAL LOCATION

Lepelle-Nkumpi is situated 50 kilometers South of Polokwane in Capricorn District of Limpopo Province. The municipality has wall to wall boundaries with nine other local municipalities within the Province. It is situated in a mountainous area of the Drakensberg and to the South borders with Sekhukhune District's four local municipalities through Lepelle/Olifants River.

Map.7: Lepelle-Nkumpi Locality

Map.8: Topography and Conservation areas

5.2 EXISTING LEGISLATION

There are different types of legislation that are applicable to different areas and towns/settlements/villages in the Lepelle-Nkumpi area. These include the following:

- Townships established in terms of the Regulations for the Administration and Control of Townships in Black Areas, 1962 (Proc. No. R 293 of 1962), e.g. Lebowakgomo;
- Settlements and villages established in terms of the Land Regulations, 1969 (Proc. No. 188 of 1969), e.g. Moletlane; and
- Townships established in terms of the Development Facilitation Act, 1995 (Act No. 67 of 1995).

The plethora of planning legislation creates uncertainty and sometimes even conflict among various role-players, i.e. municipalities, planners, land owners, developers, tribal authorities, etc.

5.3. HIERARCHY OF SETTLEMENTS

Limpopo Province Spatial Rationale identified a settlement hierarchy for Limpopo and that includes hierarchy for the CDM area. A settlement hierarchy is usually based on the classification of individual settlements (e.g. towns and villages).

The settlement hierarchy as contained in the Limpopo Province Spatial Rationale and Municipal SDF is as follows:

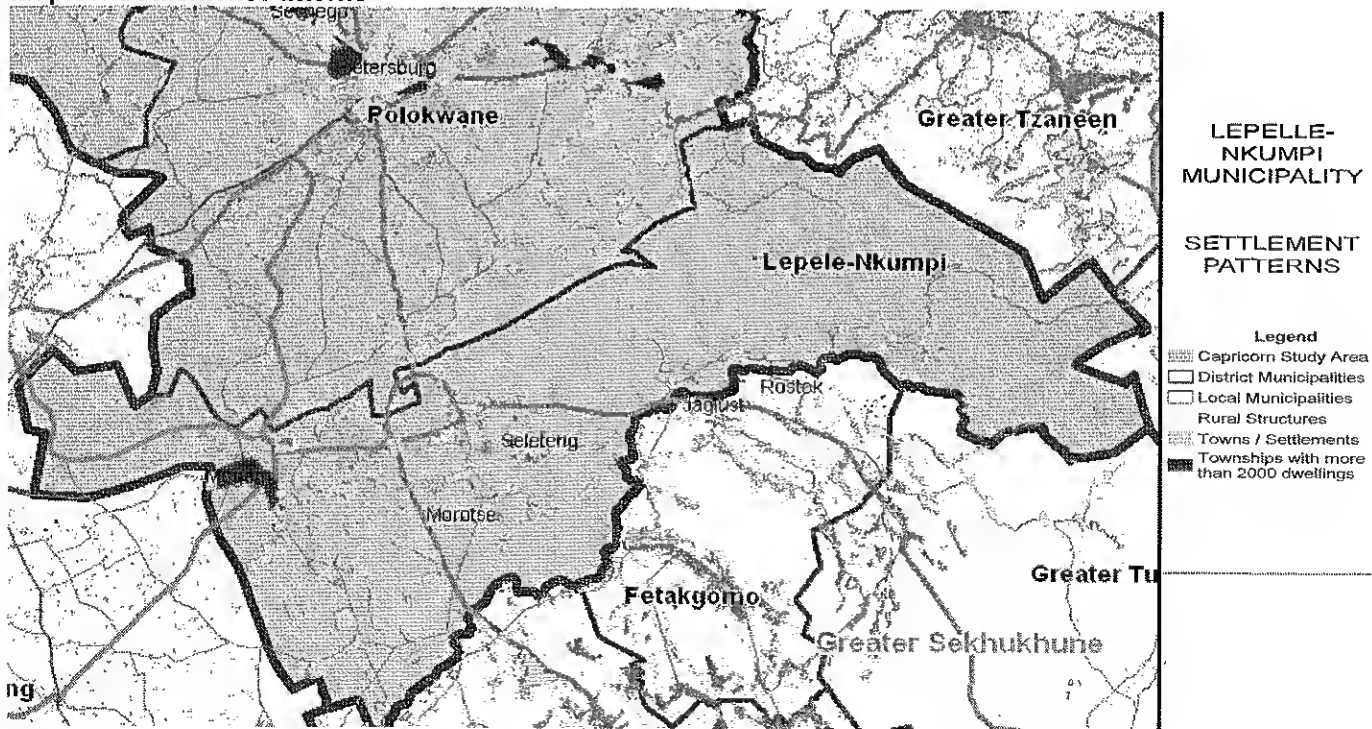

SETTLEMENT CLUSTERS	1 ST Order Settlements (Growth Points) [GP]	Provincial Growth Point [PGP]	N/A	
		District Growth Point [DGP]	Lebowakgomo	33545 people
		Municipal Growth Point [MGP]	Magatie	6758 people
	2 ND Order Settlements (Population Concentration Points) [PCP]	Mogoto/Hlakano, Moletlane, Seleteng, Mehlareng, Makurung/Dithabaneng, Makweng/Rakgwatha, Molapo, Khureng, Madisha, Mamogwasha/Bolahlakgomo		62392 people
SETTLEMENTS/ VILLAGES	3 rd Order Settlements (Local Service Points) [LSP]	Mathibela, Podungwane/Serobaneng		5986 people
	4 th Order Settlements (Village Service Areas) [VSA]	Ngwaname, Byldrift, Lekgwareng		7831 people
	5 th Order Settlements (Remaining Small Settlements) [SS]	Matinkane, Mankele, farms areas, Matatane, Bolatjane,		1487 people

5.4. STRATEGIC DEVELOPMENT AREAS (SDA's)

There are four SDA's in the municipality identified as follow, without any order of significance;

- SDA 1: Area between Mashite and Makotse which includes Lebowakgomo, Mamaolo and Seleteng
- SDA 2: Area between Mogoto and Magatle which includes Moletlane and Sekgophokgophong
- SDA 3: Area of Ga- Mathabatha
- SDA 4: Mafefe Area

The SDF is aligned to the NSDP, PSDF and District SDF and requires review so that it can align to the LEGDS. Municipality dfurther uses the approved LUMS to guide actual land uses.

5.5. LAND CLAIMS

The Restitution of Land Rights Act No.22 of 1994 allowed for people who were victims of racially motivated land dispossessions to claim back their land. According to the Regional Land Claims Commissioner, a total of 190 land claims have been finalised, i.e. 4 claims in Aganang, 0 claims in Blouberg, 27 claims in Lepelle-Nkumpi (which constitutes 174,602 hectares), 29 claims in Molemole and 130 in Polokwane.

Table.18: Land Claims in Capricorn

MUNICIPALITY	STATUS OF CLAIMS	BACKLOG	CLAIMED LAND (HA)	PERCENTAGE (%)

Source: DRDLR, 2012

Map.11: Lepelle-Nkumpi Land Claims

5.6. In-Depth Analysis and Key Findings of Spatial Issues

Constraints

- Urban sprawl and illegal occupation of land in the township and areas closer to public transport routes or economic opportunities;
- Land claims that have not yet been finalised; 174690 Ha of the 346352 Ha that comprise of Lepelle-Nkumpi Local Municipality are under land claims (50.43%), of which 22242 Ha have been settled (approximately 13% of land claimed);
- Municipality is situated in a mountainous area which inhibits development, and causes physical obstruction on transport routes;
- Pedestrian related problems are experienced. The location of schools in certain areas leads to scholars needing to cross major roads;
- Mixed land uses are evident in those areas where formal businesses are not properly developed;
- There is a possibility of asbestos infection because of the closed and un-rehabilitated asbestos mines;
- Lebowakgomo was the capital of the former Lebowa government and many government buildings are located within the area;
- The Municipality experiences the following environmental problems; overgrazing, deforestation, uncontrolled veld fires,
- Insufficient social, economic, physical and institutional infrastructure;

Opportunities

- Lepelle-Nkumpi Municipality can also benefit from its inclusion in other development clusters set out by the LEGDS. There are areas to the North-Eastern side of the Municipality, along the Olifants River on the southern boundary, with potential for agricultural developments. Various areas have been identified to have potential for Agri-villages.

- Lepelle-Nkumpi also offers unique opportunities for tourism development and should expand its competitive advantage in line with the tourism cluster of the LEGDS. Bewaarkloof and Wolkberg have potential for extended conservation and tourism development.
- Lebowakgomo has been identified as potential Provincial Growth point in the catalytic projects of the LEGDS
- Furthermore, the mining cluster can promote value-adding activities and greater linkages in the mining value-chain and services sector, rather than exporting raw produce mined for beneficiation to locations outside the boundaries of the municipal area. Mining development can boost the local economy in the area. Platinum mining development in Lebowakgomo (along the Dilokong Corridor) and diamond mining development in Zebediela could create opportunities for SMMEs along the value chain.
- See Maps 12 and 13 here below.

6. ECONOMIC ANALYSIS

6.1. MACRO – ECONOMIC INDICATORS

Macro-economic indicators reflect the structure of the economy of the local municipal area and indicate the relative size of economic sectors and trends in relative sizes over time. Lepelle-Nkumpi is the second largest contributor to the district Gross Geographic Product at 13.86%; and it is the first largest contributor to mining, second largest in government, construction, retail and community services.

Table.19: Percentage Municipal Contribution to Total GDP of Capricorn

Sector	Blouberg	Aganang	Molemole	Polokwane	Lepelle-Nkumpi
Agriculture,	0.12%	0.15%	0.71%	0.69%	0.21%
Mining and quarrying	0.15%	0.09%	0.13%	1.53%	2.31%
Manufacturing	0.08%	0.22%	0.19%	2.51%	0.48%
Utilities	0.15%	1.29%	0.14%	3.44%	0.55%
Construction	0.07%	0.17%	0.25%	2.44%	0.60%
Wholesale and retail trade	0.65%	1.27%	0.76%	7.57%	1.43%
Transport and communication	0.57%	0.14%	0.53%	6.84%	0.88%
Finance and business services	0.76%	0.83%	1.31%	19.12%	1.70%
Social and personal services	0.64%	0.67%	0.54%	4.92%	1.36%
Government services	1.50%	1.49%	1.40%	20.14%	4.35%
Total contribution to Capricorn GDP	4.68%	6.31%	5.96%	69.19%	13.86%

Data Source: Quantec Database 2011

Chart 2: Percentage Municipal Contribution to Total GDP of Capricorn

Data Source: Quantec Database 2011

The municipality's economy can be described as diversified because all the sectors contribute more or less equally to the District Gross Domestic Product, except mining which is a little higher than the rest.

Table.20: Percentage Contribution towards the Sectoral Share of the GDP for Capricorn District for 2011

Sector	Blouberg	Aganang	Molemole	Polokwane	Lepelle-Nkumpi	Total contribution towards sector
Agriculture,	6%	8%	38%	37%	12%	100%
Mining and quarrying	4%	2%	3%	35%	56%	100%
Manufacturing	2%	6%	5%	72%	14%	100%
Utilities	3%	23%	2%	61%	11%	100%
Construction	2%	5%	7%	69%	17%	100%
Retail and trade	6%	11%	7%	65%	12%	100%
Transport and communication	5%	1%	6%	78%	9%	100%
Finance and business services	3%	3%	5%	81%	7%	100%
Social and personal services	8%	8%	7%	61%	16%	100%
Government services	5%	5%	5%	70%	15%	100%

Data Source: Quantec Database 2011

The local economy has recorded a positive growth which compares well with District and Provincial GDP growth. However, the economy's strongest sector of mining had a negative growth, probably due to temporary closure of the local mines.

Table.21: Percentage GDP Growth for year 2011

Sector	South Africa	Limpopo	Capricorn	Lepelle-Nkumpi
Agriculture, forestry and fishing	2.14%	3.73%	6.04%	9.06%
Mining and quarrying	0.03%	0.72%	-1.12%	-1.08%
Manufacturing	2.32%	2.25%	3.04%	8.13%
Electricity, gas and water	2.35%	3.94%	7.46%	7.05%
Construction	7.71%	5.83%	4.91%	10.31%
Wholesale and retail trade	3.61%	2.96%	-0.58%	1.94%
Transport and communication	4.73%	4.69%	1.85%	2.26%
Finance and business services	5.50%	4.95%	4.12%	2.90%
Community and social services	2.95%	3.00%	3.69%	3.09%
General government	3.15%	2.62%	3.14%	2.46%
Total growth	3.56%	2.92%	2.84%	2.58%

Data Source: Quantec Database 2011

The unemployment rate of Lepelle-Nkumpi at close to half of economically active population is higher than those of the District, Provincial and National unemployment rate.

Table.22: Employment status for economically active population for 2001 and 2011

Data Source: Census 2011

6.2. ECONOMIC OPPORTUNITIES AND CONSTRAINTS

The reviewed LED strategy identifies the following constraints and opportunities in the municipality;

6.2.1. Economic Development constraints

Constraints identified by different role players in terms of barriers to the expansion and development of key economic sectors within Lepelle-Nkumpi Municipality include the following:

- **Land claims:** nearly half of the land contained within the boundaries of the municipality is currently the subject of land claims. The process of land claims is a lengthy one and has as yet not been resolved by the Land Claims Commission. This creates uncertainty with regard to existing commercial farmers and their ability to expand or employ more people, but also creates an uncertain climate that deters investment in the area.
- **Lack of funding or financial support and institutions:** large areas of land are registered in the name of the state and under the custodianship of traditional authorities. As such, small farmers are farming on communal land, to which they cannot get title deed, but only have permission to occupy. Farming on communal land precludes small farmers from obtaining financial support through commercial institutions such as banks, which prevents these farmers from expanding their farming enterprises or obtaining the necessary insets such as specialised machinery. Furthermore, access to funding, even for minor, necessary improvements to public and private sector products in the tourism industry, is extremely difficult to secure. Financial institutions are also lacking. This constrains the effective operation of local businesses, and also results in spending of money outside of the municipality, as residents conduct multi-purpose trips, combining trips to banking facilities with major shopping in the areas surrounding these financial institutions.
- **Proximity to Polokwane:** While the proximity of the larger activity centre of Polokwane is advantageous in some respects, it does somewhat constrain the development of the business and services sectors in the Municipality. Due to the good transport linkages, easy access and close proximity of Polokwane, large and well-established suppliers and support services are within easy reach of farmers and other industries in the Municipality, creating the perception that there is no further need for the development of these facilities locally.

- **Lack of skills:** The majority of the labour force in the Municipality has no, or very limited basic skills, necessitating on-the-job training. Training is particularly necessary in the further processing of fruit, vegetables and in the mining industry, which requires somewhat higher skills levels. The lack of these skills largely constrains the further development of manufacturing, and agro-processing and mining industries in the municipal area. Furthermore, subsistence and small-scale farmers lack the skills required to not only effectively produce their products (i.e. farming practices, disease, fertilisation etc.), but also the business skills to develop their farming enterprises into viable, profitable and sustainable businesses. In this respect, there are particular gaps in terms of the transfer of skills and mentorship from successful business people to entrepreneurs and small business owners. Lack of skills in the tourism sector is also evident, and there is no practical support is given to emerging tourism entrepreneurs or SMMEs in terms of pre-feasibility, feasibility, business planning and management of tourism enterprises.
- **Access to markets:** Most of the small-scale farmers and manufacturers do not have access to the larger markets outside of the municipal area, or even their respective villages. This forces them to sell their products to the local communities and prevents the expansion of their businesses. Access to markets for small-scale farmers is further constrained by accessibility issues and the poor condition of roads in the remote rural areas.
- **Lack of water and other infrastructure:** A further constraining factor is the lack of water. Many of the small-scale farmers are located alongside perennial rivers, but a large proportion of farmers are located away from these rivers. The water supply is not sufficient in terms of irrigation and many small-scale farmers therefore rely on dry-land farming. Furthermore, the main agricultural products only naturally occur in the southern parts of the municipal area and agricultural production and expansion would therefore not be viable development options for the northern areas of the municipality, which have a drier climate. While the municipality presents such vast opportunities for local economic development, the challenge is the underdeveloped infrastructure which undermines the maximum exploitation of these opportunities by both local people and foreign investors. Lack of/poor infrastructure such as water, electricity, sanitation facilities, communication facilities and roads in most parts of the municipality prohibit development and growth of SMMEs in the area.
- **Lack of tourism infrastructure, marketing and awareness:** Lepelle-Nkumpi currently does not have large range of accommodation, conference or tourism facilities, which hampers the development of the tourism sector in the municipality. Lebowakgomo is somewhat remotely situated and does not have much to offer as a place to stop for refreshments or supplies. There is also currently no tourism strategy in place for the Municipality which can effectively identify projects and monitor its progress. The municipality is also effectively marketed as a tourism destination. There are also very low levels of awareness regarding the tourism industry amongst local communities, which results in communities not fully understanding the value of the tourism industry, not generally having a positive and friendly attitude towards visitors, and not being aware of what opportunities the industry presents in terms of SMME involvement.

The above summarises the main constraints (but not all constraints) hindering economic development in the Municipality. Apart from identifying development opportunities and projects to facilitate economic growth and job creation, these issues need to be addressed in order to ensure the successful implementation of an economic development strategy.

6.2.2. Economic Development opportunities

The following key development opportunities exist in the municipality:

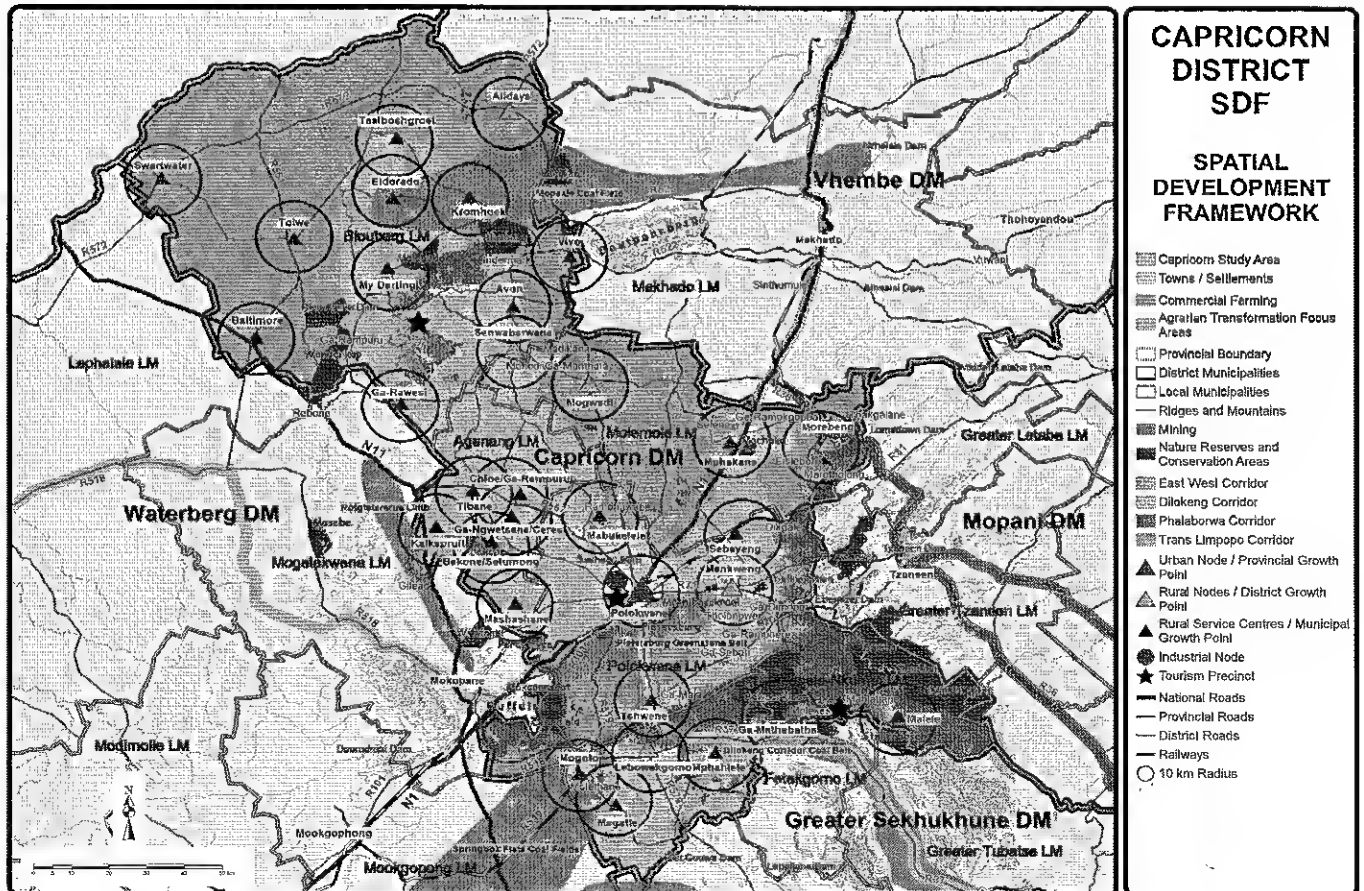

- **Natural resource base:** Lepelle-Nkumpi has a natural resource base that consists of agricultural products. The development potential in the agricultural sector of the Municipality is contained in the expansion of the production of existing products in the region, particularly citrus, vegetables and livestock. In the northern parts of the municipality (which tends to have a drier climate) potential for development lies in livestock and game farming, which generally fare well in other areas of Limpopo. While land claims are associated with some level of uncertainty, the transfer of land to local communities could create opportunities for development of the land for farming enterprises, or for tourism-related enterprises such as conservancies, game farms, accommodation and other tourism activities. Furthermore, much of the land set aside for conservation could be developed with innovative tourism attractions, especially if the new land ownership regime will require that the land becomes more productive. There are several government-owned irrigation schemes that are operating considerably below potential. There is also extensive land and buildings for broiler farming that is not being utilised.

- **Agro-processing and cluster development:** Opportunities also exist in the Municipality, mainly in relation to the establishment of new industries, and expanding of existing enterprises, that are focussed on the beneficiation of the existing agricultural products. There are a considerable number of LED opportunities in Agri-Business projects that could contribute substantially to the economic development of the area. Apart from value-adding activities to these products, there are also opportunities for the development of handling plants such as washing and packaging of fruit and vegetables. Customised factories for meat and hide processing that are currently vacant in the Lebowakgomo Industrial Park create the opportunity to participate in cluster development for meat production. Such a cluster could incorporate broiler and cattle feed production, livestock farming, slaughtering, processing, packaging and marketing. The cluster development concept should also include specialist skills training for local activity requirements and services to provide the necessary maintenance and support.
- **Mining and Manufacturing:** The processing of raw materials from mining will contribute significantly in expanding the manufacturing sector within the Municipality. The agglomeration of these activities will result in economies of scale and that would increase both economic development and employment opportunities. The platinum and diamond mining activities at Lebowakgomo and Zebediela could create opportunities for SMMEs. Negotiations with mine management would be required to unlock such opportunities. The Dilokong Platinum Corridor that extends through the area is a priority for provincial government and creates a range of opportunities for LED and support.
- **Existing skills:** Opportunities for development can also be found in existing local skills in the municipality. In this respect, it has been indicated that skills exist in beadwork and pottery. In some instances, raw materials such as clay can also be sourced locally. This creates opportunities for the development of co-operatives, as well as linkages with other sectors of the economy such as the tourism industry.
- **Retail and services:** Given the strong agricultural sector in the region opportunities arise for the trade of agricultural inputs. This includes inputs such as fertilisers, pesticides, machinery and seeds or seedlings. The development of the retail and services sectors should also be focussed on serving the needs of the local residents and business support should be provided to ensure the development of viable and sustainable businesses.
- **Tourism development:** Tourism opportunities in the Lepelle-Nkumpi Municipal Area are vast. The Zebediela Citrus is one of largest citrus farms in the Southern Hemisphere. The Wolkberg Wilderness Area consists of 40 000 hectares of almost pristine Afromontane grasslands, indigenous forests, spectacular mountain scenery and clean, running streams and rivers. It is the largest wilderness area readily available to the public of South Africa. The Downs and Lekgalameetse Nature Reserves are located adjacent to the Wolkberg Wilderness Area, while the Bewaarkloof Nature Reserve is located to the west of the Wolkberg Wilderness Area. The biggest opportunity for development in the tourism industry is based on these nature reserves. The effective packaging, commercialisation and merging thereof could generate the opportunity to establish the Municipality as a tourist destination. Opportunities also exist for the promotion of adventure tourism in the Strydpoort Mountains. Such activities could include mountain-biking, caving, rock-climbing, etc.
- **Location:** When travelling from Polokwane to Burgersfort, one needs to drive through Lepelle-Nkumpi, making it ideally located for retail, mining support services, etc.

Municipality's LED initiatives created 644 jobs in 2011/12 of which 208 were for only three months which is an improvement from the previous year's (2010/11) 200. EPWP created 240 jobs in 2010/11 and 100 jobs again in 2011/12.

7. ENGINEERING INFRASTRUCTURAL ANALYSIS

The engineering infrastructure analysis includes the provision of water, sanitation, roads, energy, telecommunications and transport within the municipal area.

7.1. WATER SUPPLY

Census 2011 shows that 75% of households has access to water above RDP standard compared to 62% in 2001. Much noticeable progress has been made among people who receive water in their yards and houses, which now constitute 51% from 35% in 2001. Lot of work still has to be done as a backlog of 14501 households still has to be served. It is possible that all households can be served with reliable and uninterrupted portable water supply at yard level, or at least within 200 meters from their yards, by 2014 to meet the Millennium Development Goal on access to water. This is because District as Water Service Authority has managed to put up reticulation infrastructure in all settlements and has now committed lot of funds to ensuring that these become functional and supply water to residents.

Free Basic Water is provided to all households outside Lebowakgomo Township who can be estimated at 51000 or 194800 individuals. Furthermore, there are 430 more households in Lebowakgomo who receive Free Basic Water.

Table.23: Households by access to piped water-1996, 2001 and 2011

Municipality	Piped (tap) water inside dwelling / yard			Piped water (tap) on communal stand			No access to piped (tap) water		
	1996	2001	2011	1996	2001	2011	1996	2001	2011
Lepelle Nkumpi	14 794 (33%)	17 628 (35%)	30 966 (51%)	12 447 (29%)	13 130 (25%)	14 215 (24%)	16 925 (38%)	20 486 (40%)	14 501 (25%)
Total Households	44 397	51 245	59682	44 397	51 245	59682	44 397	51 245	59682

Data Source: Census 2011

Chart. 3: Households by access to water

7.2. SANITATION FACILITIES

Only 49% of the total households have sanitation facilities, in reference to toilets, from RDP standard and above. Only Lebowakgomo area has sewer system, although the

sewer plant for waste water treatment is operating far above its capacity. The sanitation backlog is very huge (29827 households) in the municipality and guarantees that the MDG on sanitation will not be met by 2014 unless extraordinarily measures are taken with concomitant budget allocations. The District is also busy with a project to upgrade the Lebowakgomo WWTW.

There are 430 households in Lebowakgomo who receive Free Basic Sanitation. However, the District Municipality provides VIP Toilets to indigent households in rural areas to meet basic sanitation up to RDP standard.

Table.24: Distribution of households by type of toilet facility-1996, 2001 and 2011

TYPE OF FACILITY	Flush / chemical toilet			Pit toilet			No toilets		
	1996	2001	2011	1996	2001	2011	1996	2001	2011
LEPELLE-NKUMPI	5 574	8 671	11 696	32 777	36 684	45 372	5 831	5 889	1883
PERCENTAGE	13%	17%	20%	74%	72%	76%	13%	11%	3%

Data Source: Census 2011

Table.25: Access to Water and Sanitation by Schools and Clinics

	With Water		Without Water		Total (100%)	With Sanitation		Without Sanitation		Total (100%)
	No.	%	No.	%		No.	%	No.	%	
Schools	156	80	40	20	196	191	97.5	5	2.5	196
Clinics	21	88	3	12	24	21	88	3	12	24

There are 40 schools out of a total of 196 that are without water supply and 3 out of 24 clinics are still to be served with water supply.

Municipality relies on the following main sources of water supply;

- Underground water (diesel, electric and windmill motorised boreholes and hand pumps)
- Lepelle River (which is the main sources of bulk water supply): Mphahlele RWS, Mathabatha RWS, Mafefe RWS, Specon RWS, Groothoek RWS
- Rivers, wells, springs and fountain (used by some of the 14501 households who are yet to be provided with bulk supply or where water schemes temporarily experience challenges)

7.3. ELECTRICITY

Table.26: Distribution of households using electricity for lighting, cooking and heating-1996, 2001 and 2011

Municipality	Lighting			Cooking			Heating		
	1996	2001	2011	1996	2001	2011	1996	2001	2011
Lepelle Nkumpi	15 073	31 368	54 873	10 317	16 725	35 511	9 785	18 535	32 948
Percentage	(34%)	(61%)	(92%)	(23%)	(33%)	(59%)	(22%)	(36%)	(55%)
Total	44 397	51 245	59682	44 397	51 245	59682	44 397	51 245	59682

Data Source: Census 2011

Chart.4: Households using electricity

Source: Census 2011

Electricity has been provided to 92% of the households whereby all villages within the municipality except Mankele have access to electricity grid. Current electricity projects are aimed at electrifying new households or villages' extensions which will always be here now and in 2014 and beyond. The current backlog of post-connection extensions is estimated at 4809. The MDG target would have been reached if it were not that the number of new houses is growing everyday and also that Mankele village became part of the municipality only now in 2011. However, plans are underway to electrify the village in the near future.

12087 households are being provided with Free Basic Electricity by municipality. ESKOM is the electricity provider in the whole of municipal area.

7.4. REFUSE REMOVALS

According to Census 2011 results, 21% of households in Lepelle-Nkumpi have access to solid waste disposal service. This is being undertaken at Lebokagomo Township and two rural villages of Mathibela and Rakgoatha. A licensed landfill site has been built by the District and is, however, to be operated, managed and maintained by Lepelle-Nkumpi municipality.

Table.27: Distribution of households by type of refuse removal-1996, 2001 and 2011

	Removed by local authority / private company			Communal refuse dump			No rubbish disposal			Not Specified		
	1996	2001	2011	1996	2001	2011	1996	2001	2011	1996	2001	2011
Lepelle Nkumpi	5 778 (13%)	8 366 (16%)	12 600 (21%)	31 679 (71%)	33 241 (65%)	41 290 (69%)	6 070 (14%)	9 638 (19%)	5 446 (9%)	852 (2%)	0 (0%)	346 (1%)

Data Source: Census 2011

Chart.5: Households access to refuse removal

Source: Census 2011

8. HOUSING

There is a very strong relationship between housing, land use and economic development. Large portion of land in the municipal area is in the hands of traditional leaders and development paths there cannot be fully determined by local government. Very little can be done in these areas to ensure that land is available for housing developments and other economic activities where there is a need and where the SDF and LED strategy propose that they should go.

A very high percentage of households (95%) in the municipal area are accommodated in formal dwellings despite the rural nature of the area. The housing backlog is estimated at 3000 houses. The chart here below depicts the types of housing structures people are accommodated in, as per Census 2011 findings;

Table.28: Distribution of households by types of main dwelling-1996, 2001 and 2011

Type of Facility	Formal Dwellings			Traditional Dwellings			Informal Dwellings		
	1996	2001	2011	1996	2001	2011	1996	2001	2011
Year									
Lepelle-Nkumpi	37 603	45 513	56 429	4 866	4 439	1 495	1 928	1 293	1758
Percentage	85%	89%	95%	11%	9%	3%	4%	2%	3%
Total Households	44 397	51 245	59682	44 397	51 245	59682	44 397	51 245	59682

Data Source: Census 2011

The municipality has no housing plan and is neither a housing authority nor provider.

Table.29: Distribution of households with a radio, television, refrigerator, computer, cellphone, landline / telephone and access to internet- 2001 and 2011

Year	Radio		Television		Computer		Refrigerator		Landline		Cellphone		Internet
	2001	2011	2001	2011	2001	2011	2001	2011	2001	2011	2001	2011	2011
Number	35 759	37 168	21 787	44 400	631	6 523	22 370	45 518	4 711	2 789	12 026	51 562	13 325

	Radio		Television		Computer		Refrigerator		Landline		Cellphone		Internet
Percentage	80%	62%	49%	74%	1%	11%	50%	76%	11%	5%	27%	86%	22%

Data Source: Census 2011

The table indicates households' increased access to television (74%), cellphone (86%) and computer (11%) whereas household access to radio (62%) and telephone landlines (5%) is decreased. Access to internet was only measured in 2011 at 22% of total households. However, the challenge as identified during ward based community consultations is that certain parts of Mafefe and of Ga-Mphahlele villages are continue to experience problems with access to cellphone networks.

Table.30: Distribution of households by access to basic services- 2011

Ward	ELECTRICITY		WATER							SANITATION			WASTE REMOVAL

UNILIM/CDM SURVEY 2011

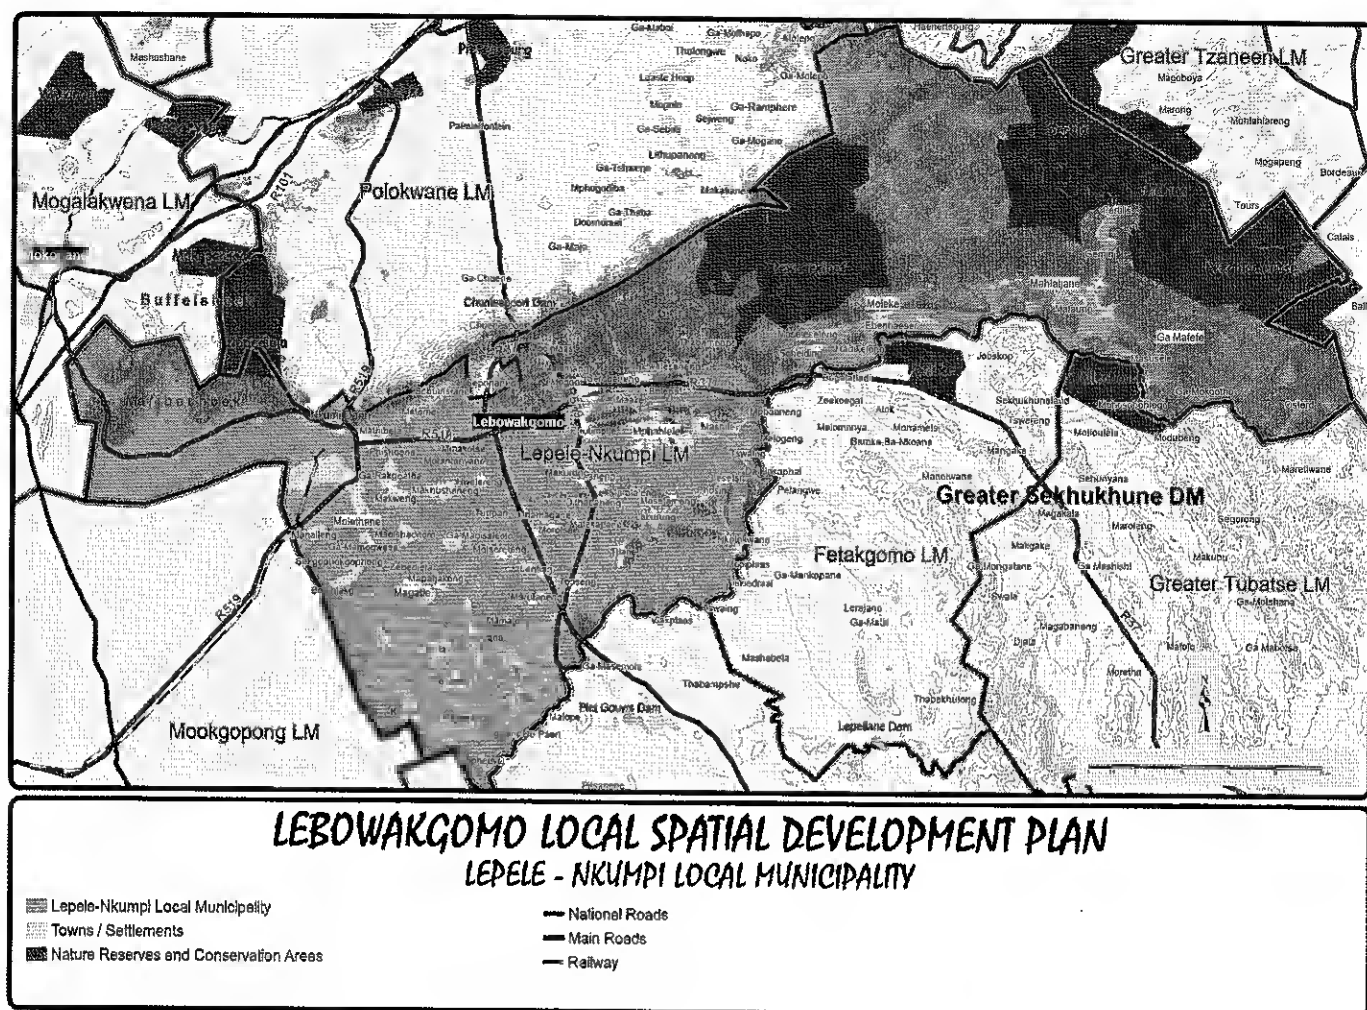

9. TRANSPORT & ROADS

The CDM prepared an Integrated Transport Plan (ITP) for its area. The ITP addresses public transport and private mode, infrastructure, facilities and services. It shows that the major public transport modes are bus and taxi operations for the municipality.

9.1 FREIGHT TRANSPORT

Moving South Africa identified three significant freight corridors through Limpopo, of which one is traversing through Lepelle-Nkumpi, i.e. the R37 from Polokwane to Mashishing, through Lebowakgomo and Burgersfort. There is significant potential for freight transport due to mining activities in Lepelle-Nkumpi and adjacent municipal areas.

Map.16: Major Road Networks

9.2 LAND TRANSPORT STATUS QUO

The rural roads are mainly poorly maintained with no specific attention to storm water drainage. Minibus taxis and buses are the most popular form of transport.

TAXI OPERATIONS IN THE LEPELLE-NKUMPI AREA

There are 12 taxi ranks in the Lepelle-Nkumpi area and five of which are informal.

BUS OPERATIONS

There are 180 routes in the district of which 19 routes are in Lepelle-Nkumpi. The challenge is that road conditions are generally poor and this has a significant impact on the operating life of the rolling stock (buses), operating costs, and level of service to the passenger. All commuter networks lead to Lebowakgomo CBD where there are no bus rank facilities and commuters' safety is at greater risk.

9.3 ROAD NETWORK AND CLASSIFICATIONS

NATIONAL ROADS

The S.A. National Roads Agency Limited (SANRAL) is the custodian for the National Road Networks and there is no National road transversing the municipality. However, the N1 road is just within 5km radius outside the border of the municipality on the Western side.

PROVINCIAL AND DISTRICT ROADS ROADS

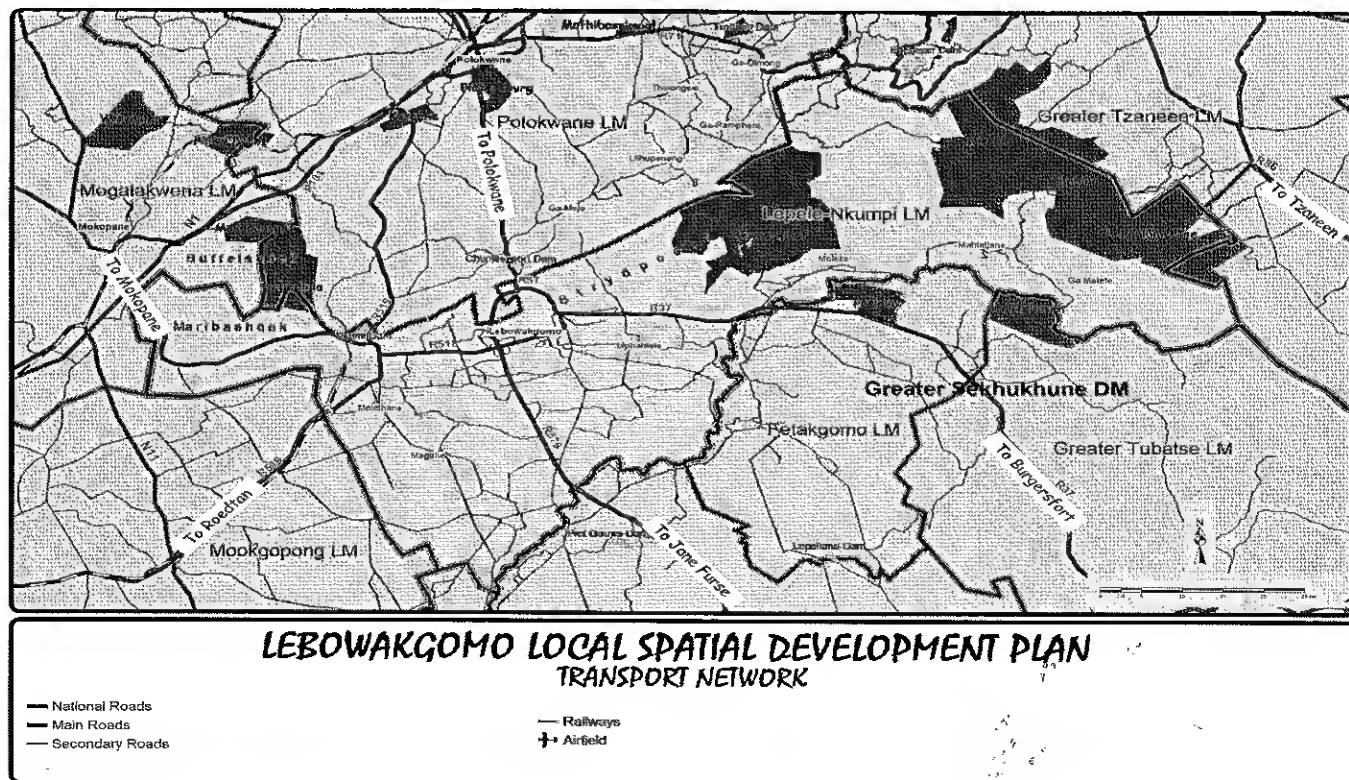

Table.31: The following strategic roads traverse the municipality:

Road Nr	Length (km)	Road Description	Linkages
P33/1	31	Polokwane-Tubatse	Polokwane to Tubatse/Mbombela
D 885	8.6	D1430 - P18/1	Groothoek to Roedtan/Mookgophong and N1
D1430	17.0	Mogoto - D885	Zebediela to Mokopane
D3588	0.9	Habakuk	Polokwane to Jane Furse
D3600	36.4	Moletlane - Klipheuwel	Zebediela to Marble Hall/Grobblersdal
D3612	23.2	Bremly - Mathibela	Burgersfort to Lebowaqgomo/Zebediela
D3628	4.1	Moletlane - Mogoto	Zebediela to Mokopane
D4045	35.2	P33/1 - Sepitsi Bridge	Polokwane to Jane Furse
D4050	38.6	Mathabatha - Mafefe	Mathabatha to Mafefe
D4055	1.5	D4050 - Mafefe	Mafefe to Maruleng/Tzaneen
D4061	3.9	Showground	Lebowakgomo to Polokwane
D4064	4.3	Lebowakgomo - Mamaolo	Lebowakgomo to Mphahlele
D4066	4.7	Mogodi - Mamaolo	Podingwane/Mogodi to Tooseng/Jane Furse
D4070	14.3	Mamaolo - Mashite	Lebowakgomo to Mphahlele

P134/3	15.0	Groothoek - Rafiri	Groothoek to Roedtan/Mookgophong and N1

Source: Limpopo DoRT

258 kilometres of Provincial, District and access roads have been tarred has been tarred thus far with a backlog of 411 km of these roads still to be tarred.

Map.17: Transport Networks

MUNICIPAL ROADS

The municipality has started with a programme for development of Municipal Infrastructure Investment Plan where municipal and access roads/streets will be determined and classified. Backlog on these roads is also not known yet.

RAIL SERVICES

There is a disused railway line from Zebediela Citrus Estate that used to connect it with Johannesburg for export of oranges.

Infrastructure Development and Basic Services Delivery Constraints

- Huge service delivery backlogs
- There is no infrastructure investment plan
- District and access roads are not classified
- Infrastructure assets are not unbundled
- Storm-water drainage is not channelled or controlled
- Shortage of technical/engineering skills
- 95% of land is owned by traditional authorities where municipality has little control over matters on land allocation and development
- Municipality has no housing plan
- Non-enforcement of building standards in the Township
- Lack of energy master plan

Strengths and Opportunities

- Waste collection equipment has been purchased
- A landfill site construction is complete
- Roads and electricity maintenance plant has been purchased including graders, dipper trucks,
- Traffic Department (unit) has been established

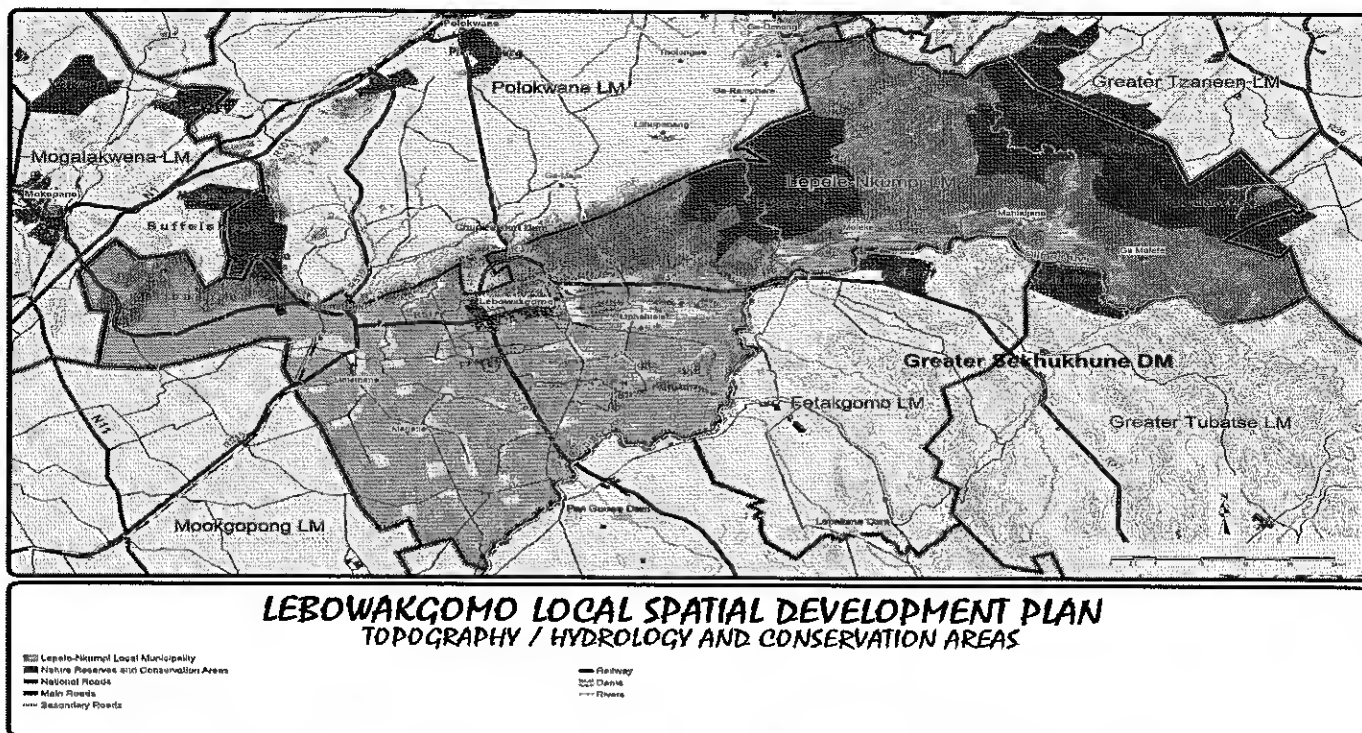

10. ENVIRONMENTAL ANALYSIS

Local Government in South Africa has a key role in addressing social and economic needs of communities while ensuring that the resource base upon which life depends is conserved and well managed. Planning in South Africa should as such aim to use scarce resources and limited capacity wisely, and to re-orientate approaches and management tools, so as to achieve a greater level of equity, service provision and sustainability in the country. Local government is important in this regard due to localised nature of many environmental problems and concerns.

There has been a number of infrastructure development and other construction projects initiated within the municipality. These projects and other factors contributed towards illegal mining of sand in rivers, resulting in alterations of river banks and irregular landscape. Drilling of boreholes, electrification of villages, mining, bulk water supplies, heavy rains etc. have had a negative impact on the environment such as the pollution on ground water, extinction of vulnerable and sensitive species, land degradation, loss of biodiversity and noise pollution among others.

Municipal objectives and strategies can be summed as responding to the dire needs for reduction of unemployment and poverty, provision of infrastructure and services and compliance with environmental management legislation and use of environmentally friendly technology.

Map.18: Conservation Areas

Map.19: Geology

The following are major environmental risks within Lepelle-Nkumpi Municipality:

Deforestation: Deforestation is one of the identified major environmental problems affecting most areas.

Overgrazing: Overgrazing is another identified environmental problem in the area. The major influencing factor in this regard is overstocking by those practicing farming and what is termed the Tragedy of the Commons i.e. it is the situation whereby no one takes responsibility on the piece of land they all use for grazing;

Erosion: Erosion is another of environmental problem that affects the larger part of the area. Its effects and occurrences are very high compared to the rest. The major causes of these conditions are overgrazing and deforestation.

Illegal occupation of land and indiscriminate change in land-use: Unplanned settlements have a major negative effect to the environment. The major causes of urban sprawl or unplanned settlements are poverty/unemployment, population growth and urbanisation;

Poaching: Poaching is very rife in areas such as Lekgalameetse;

Asbestos Pollution: Some areas of Lepelle-Nkumpi are subjected to asbestos pollution, which has detrimental effects on the lives of people. However, its magnitude is medium as most of the mines had been rehabilitated;

Uncontrolled Fires: Uncontrolled fires are another element of concern as far as the environment is concerned. The major areas affected by veld fires are the Strydpoort Mountains.

Natural and man-made disasters; and

Waste disposal: Only 21% of households has access to refuse removal services

Alien plants: Some parts of the municipality are infested with alien plants

11. INSTITUTIONAL ANALYSIS

11.1 ESTABLISHMENT, CATEGORY AND TYPE OF MUNICIPALITY

The Municipality was established in terms of the Municipal Structures Act (Act No. 117 of 1998) on 05 September 2000 - Provincial Government Notice No. 275 of 2000. It is a Category B municipality as determined in terms of Chapter 1 of the Municipal Structures Act, 1998 and has a Collective Executive System as contemplated in Section 2(a) of the Northern Province Determination of Types of Municipalities Act, 2000 (Act No. 2 of 2000).

11.2 COUNCILLORS

The Council of the municipality consists of 28 proportionally elected councillors and 29 ward councillors as determined in Provincial Notice No. 62 of 2005. Council has designated the Mayor, Speaker, Chief Whip and two Portfolio Chairpersons as full time councillors in terms of section 18(4) of the Municipal Structures Act, 1998.

The African National Congress is in the majority and the Congress of the People is the official opposition party. The composition of political parties' representation within the municipality is as reflected below.

Table.32: Political Parties Representation in Lepelle-Nkumpi

Political Party	Male	Female	Number of Cllrs
African National Congress (ANC)	23	24	47
Congress of the People (COPE)	3	1	4
Democratic Alliance (DA)	1	1	2
Pan Africanist Congress (PAC)	-	1	1

Political Party	Male	Female	Number of Cllrs
Azanian People Organisation (AZAPO)	1	-	1
African Christian Democratic Party (ACDP)	1	-	1
Independent	1	-	1
Total Municipal Councillors	30	27	57

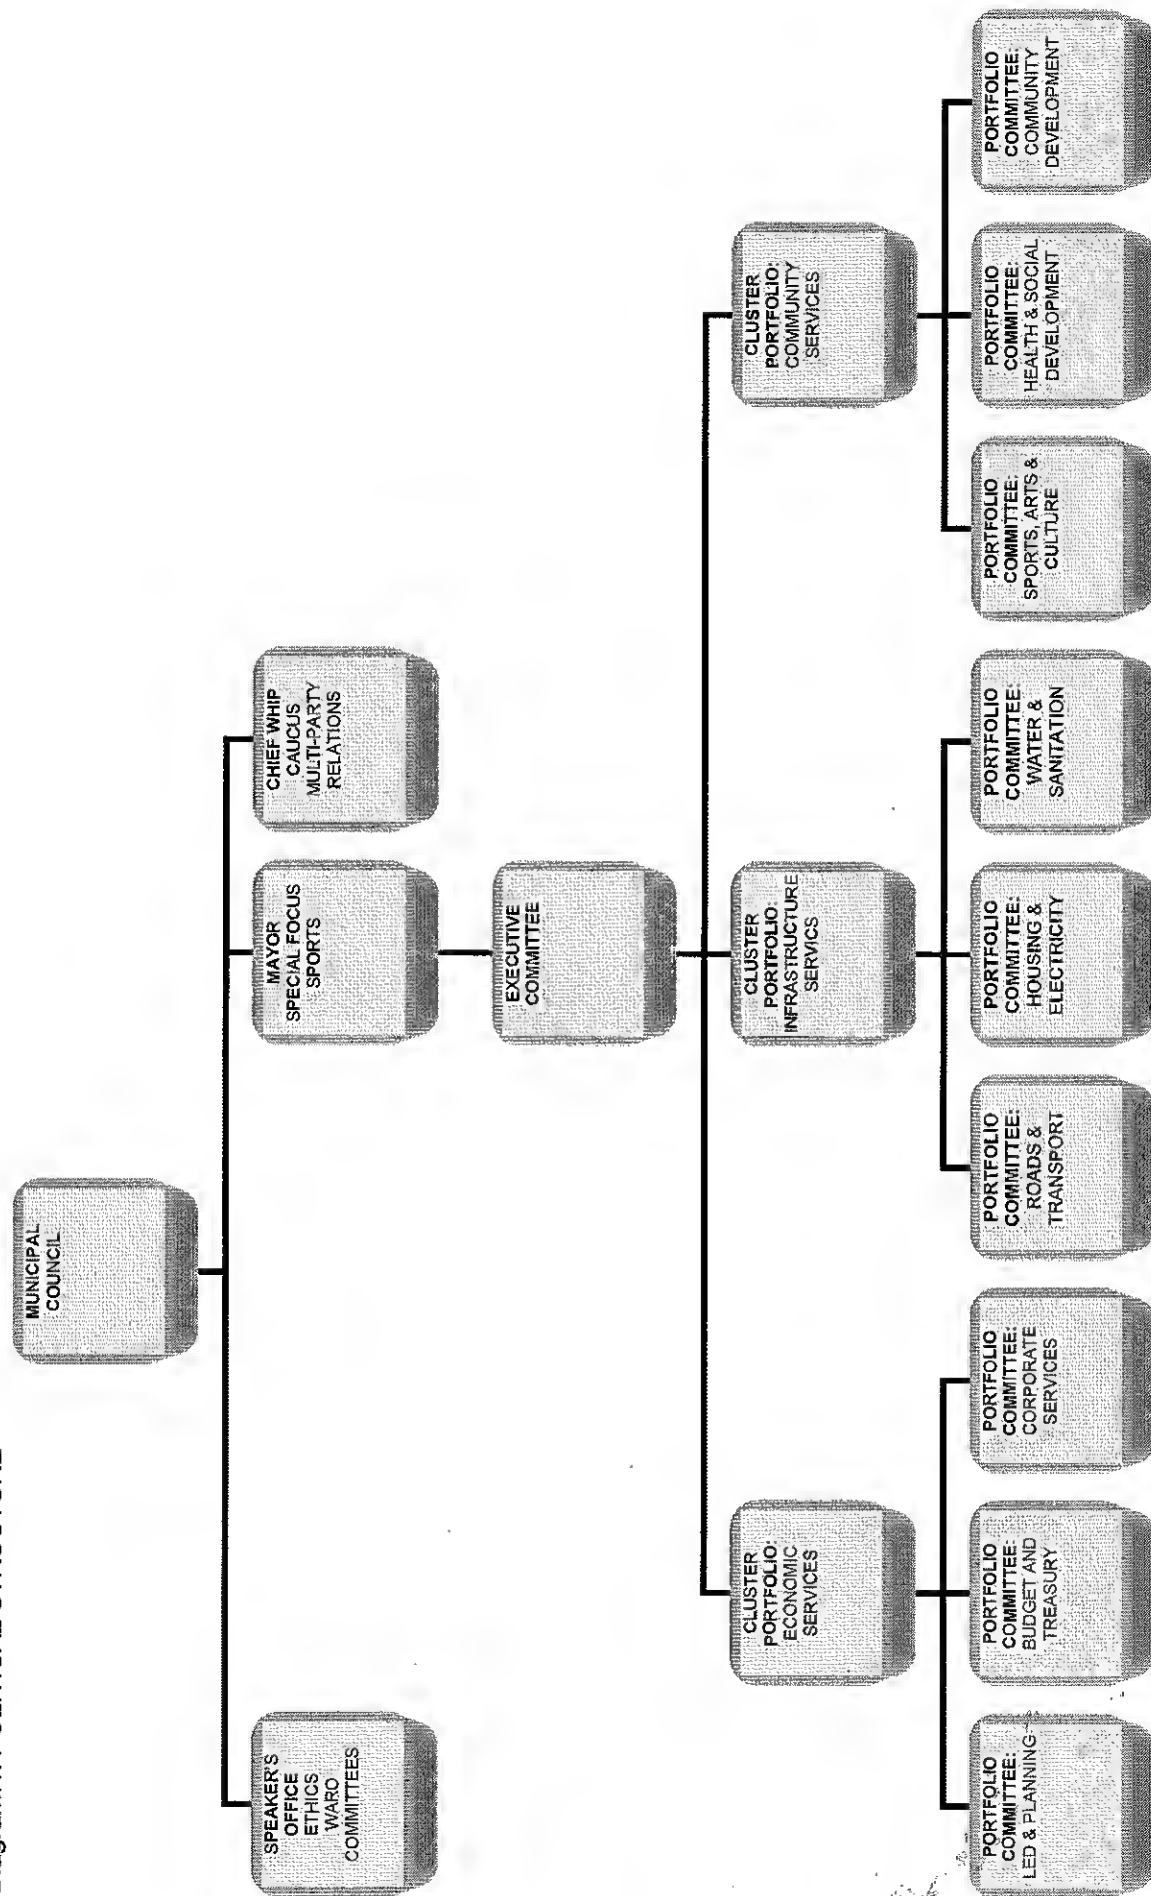

Source: 2011/12 Annual Report

The following traditional leaders are participating in the council the Lepelle-Nkumpi municipality as ex-officio in terms of Section 81(2) (a) of the Municipal Structures Act, 1998 and published in Provincial Government Notice No. 55 of 2001:

- ♦ Kgoshi Kekana III
- ♦ Kgoshigadi Ledwaba
- ♦ Kgoshi Mathabatha
- ♦ Kgoshigadi Mphahlele
- ♦ Kgoshigadi Seloane
- ♦ Kgoshi Thobejane

The municipality enjoys a healthy working relationship with all the six traditional authorities.

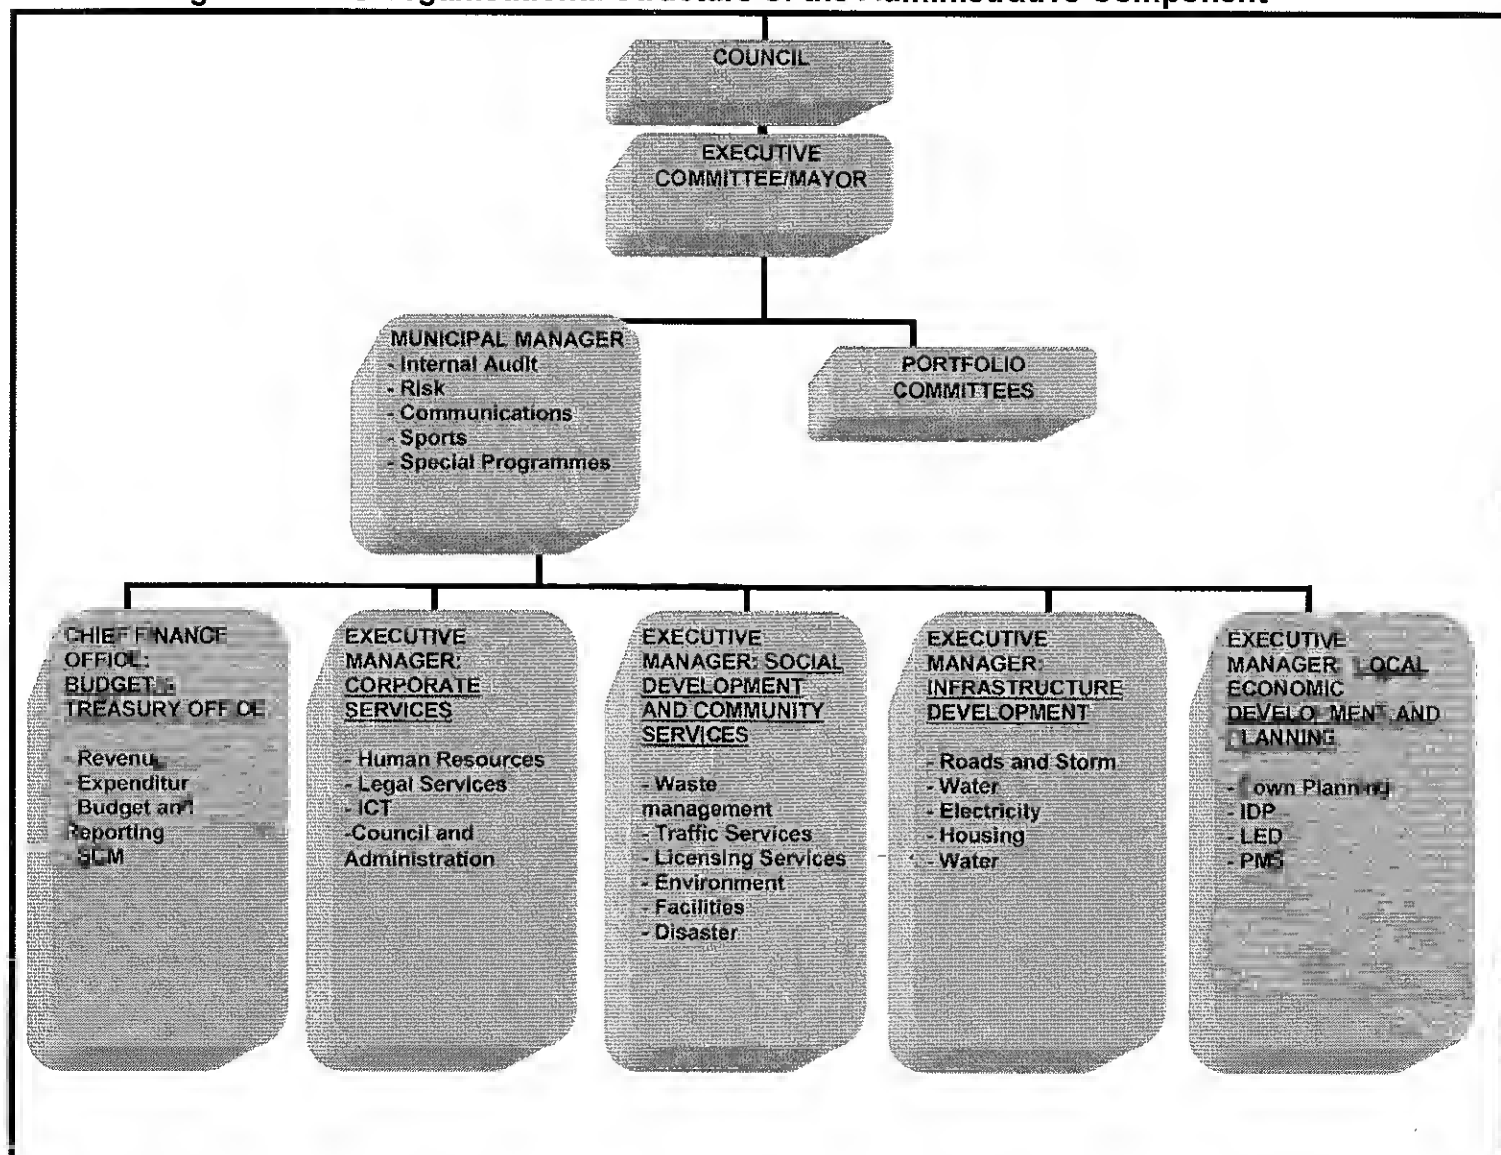

Diagram. 1: POLITICAL STRUCTURE

11.3. ADMINISTRATIVE STRUCTURE

The Municipal Manager is the municipality's accounting officer and head of the administrative component. The administrative structure is divided into five departments, i.e. Local Economic Development and Planning, Corporate Services, Social Development and Community Services, Infrastructure Development and Budget and Treasury. Council has approved an organizational structure with 279 positions and is attached hereto as Annexure C.

Diagram 2: The Organisational Structure of the Administrative Component

Council has also recognised the skills shortage in terms of specialised fields on planning, financial management and engineering areas in order to enable it to respond to development needs of the area.

Table.33. Current Staff Composition

DEPARTMENT	FILLED POSTS			VACANT POSTS
	MALE (58%)	FEMALE (42%)	TOTAL (100%)	
Municipal Manager's Office	10	7	17	5
Corporate Services	22	30	52	4
Finance	16	21	37	2
LED & Planning	7	4	11	2
Community Services	51	28	79	14
Technical Services	28	4	32	24
TOTAL POSTS	134	94	228	51

11.4. MANAGEMENT SYSTEMS

11.4.1. Information and Communication Technology

An ICT Unit has been established to effectively support and coordinates the municipality's information management systems and technology needs. The municipality has implemented the following ICT systems for the purpose of enhancing its institutional capacity;

- E-mail
- Website
- Internet and intranet
- Disaster Recovery Plan
- Wireless Technology Network
- Financial Management System
- ICT Kiosk, in the Library for community use
- Disaster Recovery Switching Centre
- Customer Care Call Centre
- EnviroRac

11.4.2. Code of Conduct

The code of conduct for councillors is as per the prescription of the Municipal Structures Act. Code of conduct for employees has been drawn and adopted deriving from the framework of the Municipal Systems Act 23 of 2000. It clarifies on the description of misconducts, and sanctions to be followed in attending to disciplinary procedures.

11.4.3. EMPLOYMENT EQUITY

One serious challenge that the municipality is struggling with is the issue of equitable representation of the previously disadvantaged groups in all levels of municipal structure, especially management. The table below depicts the current equity status in relation to designated categories of employees at level 0- 3 (i.e. middle to senior managers)

Table.34: Employment Equity Targets

Occupation category	Male				Female				Total	People with disabilities
	African	Coloured	Indian	White	African	Coloured	Indian	White		
Managers and senior officials level 0-3	14	0	0	0	11	0	0	0	25	1
Percentage	56%	0	0	0	44%	0	0	0	100%	4%

11.4.4. OCCUPATIONAL HEALTH AND SAFETY

Municipality has a functional OHS unit and OHS Committee to look into issues of health and safety at the workplace in compliance with OHS Act 181 of 1983.

11.5. IN-DEPTH ANALYSIS**In-Depth Analysis and Key Findings****Constraints**

- Shortage of staff with 18% vacancy rate
- Outdated employment equity plan
- Women constitute 54% of the municipality's total population of 230350. However, there is a mismatch of gender equity in the municipality as female constitute 42% of total staff and 44% of management.
- Organisational structure not aligned to powers and functions of the municipality
- Skills gap
- Non compliance to occupational health legislation on municipal projects and at workplace
- Non compliance to the terms of the organisational rights agreement
- Lack of electronic records management / document management system

Strengths and Opportunities

- Critical positions have been filled at senior management level and below
- PMS is being implemented at senior management level
- Management systems are established and functional.

12. GOOD GOVERNANCE**12. 1. Internal Audit and Audit Committee**

The Municipality has established internal audit office which monitors and ensures compliance of the Municipality to legislation and policy guidelines. An audit committee has been appointed to advise council on compliance and performance management issues. An internal audit charter was approved by the audit committee.

12.2. Communication and Community Participation

The Municipality has a communication unit that facilitates internal and external communication of municipal programs to stakeholders on a continuous basis. Communication in the Municipality is done through municipal newsletters, public notices and meetings, two local radio stations and regional stations, regional and national newspapers, website and phones to local and external stakeholders. All the 29 wards have been allocated Community Development Workers, appointed from Provincial CoGHSTA, who serve as conduits between the municipality and the community on public participation messages and services delivery matters. Council has also appointed

a Spokesperson in the Mayor's office to this effect. Communication and public participation strategy was reviewed by council during 2012/13 financial year.

The major challenge with regard to public participation has been poor turn-out of community members during meetings, even though transport is being arranged by municipality to ferry them from their villages to venues of meetings.

12.3. Complains Management and Customer Care

A customer call centre has also been established with a Toll Free number for the communities to raise issues on service delivery. This is an electronic Complaints Management System supported by Fujitsu to deal with matters that community members would like to see resolved while also being afforded a chance to register complains that are followed up by management.

12.4. Ward Committees

All the 29 wards have functional ward committees which were established in 2011. Ward committee members support the work of an elected ward councillor and report on the work of their respective portfolios on a monthly basis. Together with CDW's, they serve as conduits between the community and the municipality. Ward committee members receive a monthly stipend of R1000, 00 to compensate the work that they do in their respective wards and the municipality.

Ward committees hold monthly committee and community meetings in their wards and a ward forum at municipal level convened by the Speaker at least once each quarter (i.e. every three months).

12.5. Financial Reporting

The Municipality endeavours to comply at all times with the prescriptions of MFMA and MSA for financial reporting. Monthly, quarterly and annual reports are submitted to council and sent to Treasury Department and other legislative bodies. Annual financial statements are also submitted with the reports and later on subjected to audit by the office of the Auditor General. The municipality received a disclaimer audit opinion for 2011/12 financial year.

Table.35: Audit Opinion for Last Three Financial Years

Financial Year	2009/10	2010/11	2011/12
Audit Opinion	Qualified	Disclaimer	Disclaimer

The Auditor General's basis for a disclaimer for 2011/12 financial year was as a result of no sufficient appropriate audit evidence to provide a basis for an audit opinion, especially on the following areas;

- Property, plant and equipment
- Trade and other payables from exchange transactions
- Current portion of unspent conditional grants and receipts
- VAT receivables and payable
- Revenue
- Trade and other receivables from exchange transactions
- Other receivables from non-exchange transactions

- Impairment loss
- Prior period errors
- Accumulated surplus
- Commitments
- Contingent liabilities
- Cash flow statement
- Irregular expenditure
- Unauthorised expenditure

An action plan has been developed by management of the municipality to deal with specific matters raised in the whole AG's audit report so as to improve levels of compliance and accounting; and reporting for a positive audit opinion.

12.6. Anti-Corruption and Fraud Prevention Strategy

Council has also approved a reviewed Anti-Corruption and Fraud Prevention Strategy in June 2012. It is a policy and a plan of the municipality guiding it on how to deal with issues around fraud risk management; proactive defence of assets; and fraud response plan. Risk Unit has been established as part of implementation of the municipal anti-fraud plan.

A Fraud and Corruption Hotline was relaunched in November 2012 to provide tool to anybody who might have to report fraud and corruption activities taking place in the municipality. The Hotline (0800205053) is managed by the District Municipality with whom campaigns on the subject are conducted on an ongoing basis.

12.7. Risk Management

Municipal council has approved a reviewed Risk Management Strategy in June 2012. A Risk Unit has been established and a Risk Officer appointed to operationalise the risk management strategy.

12.8. Performance Management System (PMS)

The Municipality reviewed its PMS framework during the 2011/12 financial year. Individual performance assessments were done to senior managers in line with the Performance Regulations from the same period. The senior managers do sign performance agreements at the beginning of the financial year, outlining what is expected of them as acceptable standards of performance. To this effect, assessment panel was appointed to conduct the individual performance assessments of municipal managers and managers reporting to him for in-year and annual performance. Performance bonuses have not been paid although they were budgeted for in the previous financial year.

Quarterly and annual organisational performance reports are however prepared and submitted to council and other legislative bodies to track progress on the SDBIP. An audit committee was appointed by council in 2011 with an additional mandate to look into municipal performance management matters.

In-Depth Analysis and Key Findings on Good Governance Constraints

- Poor community/stakeholders participation in meetings

- Negative audit opinion that shows non compliance to legislation, systems and policies governing municipal operations

Strengths and Opportunities

- Management systems have been established
- Supply chain management policy is approved and bid committees appointed
- PMS is being implemented at senior management level

13. FINANCIAL SUSTAINABILITY

13.1. Revenue Management

The main sources of own revenue are traffic and licensing services, refuse removal, and some short to medium term investments. Municipality used to collect revenue on water and sewerage services until CDM took back the function in 2013 as it is the Water Services Authority. Other than these own revenue sources, the municipality receives the following major grants;

- Municipal Infrastructure Grant
- Municipal System Improvement Grant
- Financial Management Grant
- Equitable Share
- DME Grant

Table.36: Revenue Collection Rate

2009/2010			2010/2011			2011/2012		
Amount Billed	Actual Collected	%	Amount Billed	Actual Collected	%	Amount Billed	Actual Collected	%
R 68 569 819	R 13 337 537.00	20	R 86 606 069.64	R 13 059 807.92	15	R 88 649 370.23	R 19 049 532.30	22

And this situation of poor revenue base and collection makes the municipality 80% dependent on grants. Plans are underway to expand revenue base through collection in identified rural villages, starting with property rates, water and refuse removal. The challenge has been boycott of payment of services by a certain sector of the residents of Lebowakgomo Township, which is the only area where rates are being collected.

13.2. Budget and Expenditure Patterns

Each year the municipality compiles three year budget that is compliant with Treasury Budget Framework and is approved by council and submitted to Provincial and National Treasury.

The following expenditure patterns are recorded for previous financial year on municipal budget as per audited Annual Financial Statements;

Table.37: Budget and Expenditure Patterns

GRANT	2009/10 Budget	2009/2010 EXP	%	2010/11 Budget	2010/11 EXP	%
Municipal Infrastructure Grant	28 008 236.25	24 957 503.80	89.11	22 427 732.45	14 829 064.00	66.12
Municipal System Improvement Grant	761 043.04	733 778.85	96.42	777 264.00	522 200.00	67.18

Financial Management Grant	3 117 683.27	1 925 253.83	61.75	4 192 429.00	3 918 707.00	93.47
Equitable Share	76 925 463.00	76 925 463.00	100.00	93 673 613.00	93 673 613.00	100.00
DME Electricity Grant	4 800 000.00	2 426 901.75	50.56	4 873 098.25	3 479 712.00	71.41
Total on Grants:	113 612 425.56	106 968 901.23	94.1	125 944 136.70	116 423 296.00	92.4
Total Budget						

The challenge with regard to municipal budget and its spending is that the expected revenue is not being collected as consumers have of recent past failed to pay for services even though they happily receive and use.

13.3. Supply Chain Management

The Municipality is implementing the Supply Chain management policy as prescribed by MFMA and approved by council in May 2013. An SCM unit has been established and bid committees (specification, evaluation and adjudication) also appointed. The SCM policy is reviewed annually to align with new legislative framework and the changing needs of the municipality.

Some of the challenges with respect to SCM processes at Lepelle-Nkumpi are delays that are a result of uninformed budgets from user departments that do not get favourable quotes from service providers. Also some suppliers commit to contracts that they are unable to honour.

13.4. Assets management

The Municipality keeps an asset register which is GRAP compliant. The asset management policy and procedures which encompass the asset disposal have been developed and are reviewed on an annual basis. Asset management and disposal committees have been appointed to ensure that there is prompt disposal of redundant assets. The challenges on the assets register are that it needs to be updated with regards to immovable assets and also that

In-Depth Analysis and Key Findings on Financial Viability

Constraints

- Low rate of revenue collection
- No programme to encourage consumers to pay for services
- Lack of powers and functions on water services
- Ageing / dysfunctional water supply and billing infrastructure
- Metering technology does not restrict water to deal with defaulters
- Non adherence to procurement plan
- Poor and non-responsive bids
- Lack of suppliers' database
- Lack of monitoring of budget performance
- Shortage of funds for service delivery programmes
- Creditors not paid within 30 days
- Lack of budget management system

Strengths and Opportunities

There is huge revenue base at Lebowakgomo Township and a potential to expand to rural areas

Budget and Treasury office has been established and fully staffed with financial systems

14. CROSS-CUTTING ISSUES

Cross cutting issues refer to those issues, which require a multi-sectoral response and thus need to be considered by all departments.

14.1 HIV/AIDS

See item 3 here above.

14.2 Local Agenda 21

Lepelle-Nkumpi municipal programmes are approached, from planning to implementation, with greater caution for effective use of natural resources to benefit current population while being preserved for future generations. This is in line with the decisions of Kyoto Protocol, World Summit on Sustainable Development, Rio De Janeiro, and COP 17 among others. See environmental analysis here above.

14.3. Disaster Management

The District Municipality is the one with powers and functions on Disaster Management. However, according to National Disaster Management Framework, there are eight requirements that must be applied and documented by all spheres of government. These are;

- Use disaster risk assessment findings to focus planning efforts
- Establish an informed multidisciplinary team with capacity to address the disaster risk and identify a primary entity to facilitate the initiative
- Actively involve communities or groups at risk
- Address multiple vulnerabilities wherever possible
- Plan for changing risk conditions and uncertainty, including the effects of climate variability
- Apply the precautionary principle to avoid inadvertently increasing disaster risk
- Avoid unintended consequences that undermine risk avoidance behavior and ownership of disaster risk
- Establish clear goals and targets for disaster reduction initiatives, and long monitoring and evaluation criteria to initial disaster risk assessment findings

Capricorn District Municipality has, in accordance with Chapter 5 of Disaster Management Act, established a Disaster Management Centers through the whole of its area, including one in Lepelle-Nkumpi. It provides for guidance in assessment, prevention and reduction of risk of disasters. Through this the District provides support and guidance to Lepelle-Nkumpi in the event of a disaster occurring or threatening to occur. The centre is equipped with the necessary equipment and personnel in order to deal promptly with disasters.

The challenge is that the municipal area is vast with settlements of small populations scattered throughout. This makes it difficult to respond to disaster as quickly as desired by the National Disaster Management Framework.

14.3.1. Disaster Risk Assessment

Chart.6: Disaster Hazards in Lepelle-Nkumpi

Veld fires, floods, deforestation, potential agricultural diseases, drought and epidemics are the highest priority threats in Lepelle-Nkumpi.

Chart.7: Disaster Vulnerability in Lepelle-Nkumpi

Poverty and lack of basic services are the main contributors to the high vulnerability of people and are higher priorities for all municipalities in Capricorn. Appropriate poverty alleviation programmes, health, water, road infrastructure, telecommunication programme are required to reduce the vulnerability status of communities and to help build community resilience. High crime rate in the area also requires appropriate prevention programmes.

14.4. Poverty Alleviation

The high levels of poverty are apparent as shown by the statistics from Census 2011 where about 79% of households have an income of less than R3200 per month (the household subsistence level) or no income at all. Poverty alleviation is a central issue for the municipality and is addressed, within the available resources, through various IDP programmes and projects. Examples of these include the municipality's LED programme, EPWP, War on Poverty, community work's programme, labour intensive infrastructure and social programmes and provision of free basic services to qualifying households.

The following Monthly Free Basic Services have been provided to households;

Free Basic Service	Free Basic Water	Free Basic Electricity	Free Basic Sanitation	Refuse Removal
Households	51000	12087	430	3800

An indigent policy was approved by council with an intention to provide subsidy to households that earn R3500.00 per month to access basic services. This guided the compilation and review of the indigent register by council in 2012.

14.5 Gender Equity

Gender inequalities exist in the social, economic, physical and institutional environment of the municipality. Women constitute 54.48% of the population (Census 2011), yet there is poor representation of women in community structures;

Women constitute 47% of municipal councillors and 50% of its Executive Committee. In fact both the Mayor and the Speaker of the municipality are women councilors. At ward committee level, out of 261 members 150 are women.

In terms of employment equity, the municipality has put in place an employment equity plan with monitoring indicators that are gender disaggregated. They show that women comprise 44% of management (i.e. level 0-3) and 40% of the total staff. Within the municipality, several initiatives have been undertaken to advance the national gender agenda. Amongst others, a gender desk has been established in the Mayor's office, a gender procurement scoring system is in place to encourage the economic empowerment of women entrepreneurs and companies. Moral Regeneration Movement was also launched during the 2011/12 financial year.

14.6 Children & Youth

According to Census 2011, approximately 69% of the municipality's population can be categorized as either children or youth (0-34 yrs). This group is the most vulnerable and is greatly affected by the social ills facing our society today. The municipality is experiencing a number of youth-related problems, namely HIV/AIDS; crime; teenage pregnancy; alcohol and substances abuse; unemployment; and the non-completion of schooling. Children's Forum and Youth Council have been established to deal with issues that affect young people in the municipality. Service delivery programmes are also mainstreamed to benefit the youth at various levels.

14.7 People Living with Disabilities

According to Census 2011, 3.4% of the population is living with disabilities. A Disability forum was launched and is actively advocating for the needs and rights of people with disabilities. A disability strategy is presently being developed.

14.8 Older Persons

7.8% of the population of Lepelle-Nkumpi is older than 64 years (Census 2011).

A forum for the aged was formed in 2007 to promote the needs and interests of this important sector of our society.

14.9 An In-Depth Analysis and Key Findings of Cross-cutting Issues.

i. Weaknesses and Threats

- ☐ There is lack of facilities and staff to deal with HIV / AIDS testing, counselling, treatment and care. Government Health Department is strained with understaffing at clinics and hospitals, home based care facilities are under- resourced and non-existence in some areas.
- ☐ There is no employee assistance programme to deal with those affected.
- ☐ There are high levels of poverty and unemployment
- ☐ There is too little budget available from the municipality to fund coordination of special focus programmes
- ☐ The municipality does not have an integrated strategy or plan to deal with matters relating to gender, youth, children and disabled

ii. Strengths and Opportunities

- ☐ Coordination of Special Programme is placed in the Mayor's Office. Issues in respect to gender, youth, children, and disabled are being addressed through a well staffed special focus unit within the municipality and through involvement community based structures in the wards
- ☐ There are strong partnerships with local CBO's, local mine and government departments to implement HIV / AIDS community outreach programmes of education, training and counselling.
- ☐ Opportunity with regard to Local Agenda 21 lies in the devolution of environmental management function and transfer of environmental officers from province to municipalities. This was further strengthened with the approval of environmental management plan.
- ☐ Municipality has a dedicated official dealing with Disaster Management

15. DEVELOPMENT PRIORITY ISSUES

Table.38: Ward Based Development Priorities

Ward 1 Priority Needs	Ward 2 Priority Needs
<ol style="list-style-type: none">1. Tarring of roads2. Water reticulation and yard connection3. RDP Housing4. Construction of a clinic in Kliphuiwel and Makgophong5. RDP Housing
Ward 27 Priority Needs	Ward 28 Priority Needs
<ol style="list-style-type: none"> 1. Water reticulation and yard connection in the whole ward 2. Construction of a health centre 3. Electrification of extensions in Tlase, Roma, Madikeleng, Bodutlolo & Maseleseleng 4. RDP Housing in the entire ward 5. Road tarring in the entire ward 	<ol style="list-style-type: none"> 1. Cell phone network tower at Mphaaneng & Ramonwane 2. Water and sanitation 3. Electricity 4. Roads and storm-water 5. Housing
Ward 29 Priority Needs	
<ol style="list-style-type: none"> 1. Construction of water treatment / purification plant and reservoir for water reticulation in ward 28 & 29 2. Roads and storm-water 3. Employment opportunities 4. RDP Housing 5. Community and sports facilities 	

15.2. Top Five Priority Needs

From the situational analysis and the SWOT, the main constraints that the Municipality faces are listed hereunder with priority focus areas

1. Water and Sanitation
2. Roads and storm water
3. Community and Sports Facilities
4. Housing
5. Electricity

(See Addendum of Ward Needs)

15.3. Top Five Priority Development Focus Areas

1. Improve access to basic services through infrastructure development and refurbishment/maintenance
2. Expand revenue base and increase collection rate of billed revenue
3. Initiate partnerships to create employment opportunities and fund service delivery programmes
4. Improve environmental management
5. Land development for residential and business purposes

C. IDP STRATEGIES

1. BACKGROUND

The Municipal Systems Act, 2000 prescribes that municipalities should determine a **vision** for long-term development, **development objectives** for the elected term of the council and **development strategies** which are to be aligned with national and provincial sector plans and planning requirements.

2. LEPELLE-NKUMPI MUNICIPALITY'S VISION

The purpose of setting a vision for a municipality is to inspire, focus the attention and mobilise all residents, communities, stakeholders, politicians and officials in creating the desired future for the municipal area

Vision:

"Be financially viable municipality, geared towards the improvement of quality of life of the people by providing sustainable services"

Mission:

"To effectively provide quality services and thus make a significant contribution to social and economic development of the community"

Values:

"Municipal officials (councillors, management and administration) will at all time conduct municipal business guided by the values of: honesty, transparency, ubuntu, consultation, value for time and money, access to information and access to services."

3. DEVELOPMENT OBJECTIVES & STRATEGIES

Section 26(c) of the Municipal Systems Act, 2000 (Act No. 32 of 2000) stipulates that an Integrated Development Plan must reflect, *"The council's development priorities and objectives for its elected term..."*

The following are the development objectives of the municipality;

- Provide clean portable water to all households at minimum RDP standard and to 75% at yard connection by 2016.
- Provide weekly/bi-weekly removal services to 50% of the households by 2016
- Provide sanitation services at minimum RDP standard to 70% of households by 2016
- Provide electricity to all remaining 4809 households by 2016
- Reduce unemployment from 48% to 40% by 2016
- Upgrade 50 km of roads from gravel to tar by 2016
- Increase municipality revenue base and rate of collection of billed revenue from 20% to 50% by 2016
- Attain clean audit opinion by 2014
- Transform municipality from manual to e-municipality by 2016

4. STRATEGIES AND PERFORMANCE INDICATORS

The table herebelow addresses the above objectives with strategies, specific indicators and targets.

TABLE.39: KEY PERFORMANCE AREAS, STRATEGIES, INDICATORS AND TARGETS

D. PROJECTS PHASE

1. INTRODUCTION

Specific issues (i.e. opportunities and constraints) in the Lepelle-Nkumpi were identified during the analysis phase and prioritised in order of significance to assure the application of actions, time and resources to such issues. This chapter identifies projects which council hopes to achieve, first for next five years without budget allocations and also those with budget allocations as per the MTEF. Other development role players (including sector departments and private sector) should use these identified projects whenever they wish to make development intervention in the municipality.

1.1. PROJECTS IDENTIFIED FOR IMPLEMENTATION

TABLE 40: PROJECTS IDENTIFIED FOR IMPLEMENTATION WITHOUT BUDGET

Sector	Project	Location	Description
Mining	Rietvalley Stone Crushers	Ga Seloane	Crushing of mines waste rocks for civil, roads and building purposes
	Staanplaas Stone Crushers Feasibility	Staanplaas	Feasibility study of stone crushing for civil, roads and building purposes
	Nkotkwane Stone Crushers	Nkotkwane	Stone crushing for civil, roads and building purposes
	Cement Mine	Zebediela	Cement Mining
	Klipspringer Mine	Zebediela	Diamond Mining
	Slate Slabs	Mafefe, Mashadi	Slate slabs mining
	Boynton Mine	Mphahlele	Platinum Mining
	LONMIN Mine	Hwelereng	Platinum Mining

Sector	Project	Location	Description
Agri-Business	China Nationals Minerals	Mphahlele	Platinum Mining
	Lesego Mining	Mphahlele	Platinum Mining
	Aquarius Platinum Mining	Mphahlele	Platinum Mining
	Grootklip Irrigation Scheme	Along Lepelle River (Grootklip Citrus & Grapes project)	Production of citrus and grapes
	Lebowakgomo hydroponic	Lebowakgomo	Crop Farming
	Integrated Goat Farming	Ga Mphahlele	Goat Farming for Purposes of Selling living livestock, goat meat and milk
	Zebediela citrus juice	Zebediela	Processing of juice
	Fresh Produce Market	Lebowakgomo	Vegetable market/ distribution
	Lepelle- Nkumpi Agricultural Marketing Project	Municipal Wide	Mentoring and Capacity Building of Emerging Grain Farmers
	Bee-hive Farming	Zebediela	Honey Production
	Chicken Abattoir, broiler chicken farming & processing	Lebowakgomo, Mphahlele	White meat Production
	Aquaculture	Nkumpi Dam	Fishing
	Crop Farming/ Poverty alleviation Gardens	Motserereng, Sekgophokgophong, Makweng, Motantanyane, Makushwaneng, Mahlatjane.	Agriculture
	Revitalisation of irrigation schemes	Scheming, Tooseng, Malekapane, Makgoba, Maseleseleng, Mokgobolang, Mashadi, Ga-Mampa.	Agriculture
	Grazing land for livestock	Mogoto, Tooseng, Mamaolo, Mahlatjane.	Livestock farming
	Dipping facility	Malekapane, Tooseng.	Livestock farming
	Resuscitation of Lebowakgomo Hydroponics	Lebowakgomo	Agriculture
	Vegetable co-operatives	Tooseng	Crop farming

Sector	Project	Location	Description
		Zone F RDP, Lekurung, Morotse, Marulaneng, Mamatonya, Makurung, Maralaleng, Sefataolo, Bolopa/Maake, Bolatjane, Phalakwane, Matime, Staaplaas, Serobaneng, Makgoba, Mphaaneng, Ramonwane, Motsane, Ngwaname,	
	Centre for Disabled	Khureng	Integrated social service brought nearer to the people
	Multi-purpose hall	Lebowakgomo Zone B	
	Drop-in Centre	Makweng, Hweshaneng,	
	Refurbishment of community halls	Mamaolo, Mogodi, Lesetsi, Dithabaneng	Provision of furniture
	Upgrading of Community Hall	Ga-Mampa,	Provision of Community Services
Health Facilities	Health centres	Motsane/Dublin, Mathabatha	Primary Health Care Services
	Construction of a Clinic	Maijane Morotse, Makgoba, Nkotokwane, Thamagane, Lesetsi, Mogodi, Mahlatjan, e Tjiane, Hweshaneng, Mashadi, Khiphuwel, Makgophong, Khureng, Ga-Molapo, Gedroogte, Madisha-Leolo, Sekgophokgophong, Makoeng, Motantanyane, Makushwaneng, Mathibela, Ga-Mogotlane, Manaileng, Matome, Maralaleng, Malekapane, Bolopa/Maake, Phalakwane, Ga-Mampa, Motsane, Mankela,	Primary Health Care Services
	Hlakano Clinic	Hlakano	Primary Health Care Services: Relocation of Zebediela Estates Clinic to Hlakano
	Makurung/Dithabaneng Clinic	Makurung/Dithabaneng	Primary Health Care Services: Relocation of Dithabaneng Clinic to be at the centre of Makurung and Dithabaneng
	Old Age Home / Centre	Lebowakgomo	Provision of Social Services
	Palisade fencing at Morotse/Thamagane clinic	Morotse	Promotion of safety and security

Sector	Project	Location	Description
Communication	Satellite EMS Station	Mahlatjane,	Emergency Services
	Cell phone towers in various areas	Mogodi, Ga-Mampa, Ramonwane, Motsane, Lekurung, Tooseng, Morotse, Mahlatjane, Dublin, Mankele,	Improved cellular phones network coverage/services
	Satellite Post Office	Mogodi, Mathabatha,	Provision of Community Services
Other Community Facilities	Satellite police station	Seleteng, Hlakano, Sehlabeng, Lekurung, Majjane,	Crime Prevention
	Satellite Fire Station	Majjane	Emergency Services
	Upgrading of Mathibela and Magatle cemeteries	Mathibela and Magatle	Community Services
	Maintenance of cemeteries	Makweng, Motantanyane, Makushwaneng, Mogoto, Makurung,	Provision of Community Services
	Palisade fencing at cemeteries	Matladi, Diraganeng, Manaleng, Mathubu	Provision of Community Services
	Provision of waste management bins	Seruleng, Mehlaeng, Khureng, Sehlabeng,	Waste Management
	Revitalisation of Magatle showground	Magatle	Revitalisation of showground
	Bus shelters	Seleteng, Hweleshaneng, Bolopa/Maake, Bolatjane, Phalakwane,	Provision of Transport Facilities

1.1. PROJECTS BUDGETED FOR IMPLEMENTATION BY LEPELLE-NKUMPI

E. INTEGRATION

INTRODUCTION

During the Integration Phase Lepelle-Nkumpi Municipality has to make sure that project proposals are in line with the objectives and strategies that were formulated during the previous phase, with concomitant resources (financial and institutional) allocations and compliance to legal framework.

1 APPROVED SECTOR PLANS

- I. Performance Management System
- II. LED Strategy
- III. Spatial Development Framework
- IV. Environmental Management Plan
- V. Land Use Management System
- VI. Risk Management Strategy
- VII. Communication Strategy
- VIII. Supply Chain Management Policy
- IX. Integrated Waste Management Plan
- X. Revenue Enhancement Strategy
- XI. Investment Attraction and Marketing Strategy
- XII. Fraud Prevention Plan
- XIII. Storm Water Master Plan
- XIV. Disaster Recovery Plan
- XV. Integrated Public Safety Strategy
- XVI. Disaster Management Plan

2 PERFORMANCE MANAGEMENT SYSTEM

IMPLEMENTING PERFORMANCE MANAGEMENT

Council has approved a performance management system (PMS) that serves as a framework for undertaking its performance management functions starting with senior management.

The following are core aspects of implementing PMS in Lepelle-Nkumpi:

- Plan for performance by clarifying objectives and outputs to be achieved;
- Clarify performance expectations by setting standards and targets for each indicator to assess performance in practice;
- Monitor, measure, assess and evaluate/review performance;

CONDUCTING PERFORMANCE REVIEWS

In the Performance Management System Framework reference has been made to the level of accountability and responsibility in the review process so that each senior manager's quarterly performance review is conducted by a supervisor until up to a level where the municipal manager's performance review is done by the council executive committee. A Performance Audit Committee has been appointed and assessment panels established. A PMS Manager is appointed in the previous financial year as systems have been set for reviews to take place. Also, a budget has been set aside to reward outstanding performance at senior management level.

3. LOCAL ECONOMIC DEVELOPMENT STRATEGY

Lepelle-Nkumpi Municipality Local Economic Development (LED) Strategy, developed first in 2007 and reviewed in 2013 by council, provides the Municipality with guidelines to create and facilitate economic development, realize the underlying economic development potential, and encourage private sector investment and job creation. The strategy has been reviewed in order to align it to current circumstances and other planning tools, including NDP, NSDP and LEGDP.

LED STRATEGIES

In light of the key sectors identified by local and district strategies, namely Agriculture, Mining, Tourism, and Manufacturing, programmes aimed at creating a critical mass of economic development in the Municipality were identified. The successful implementation of the programmes and projects will ensure more job opportunities are created, skills developed and opportunities created especially for SMME's.

As such, the following programmes were prioritized based on ease of implementation, and overall economic impact (especially job creation);

THRUST 1: LOCAL BUSINESS SUPPORT AND STIMULUS
<ul style="list-style-type: none"> • Compile and maintain a Lepelle-Nkumpi gateway 2 opportunity database • Conversion of the former 'Basadi ba Bapedi' facilities into a manufacturing incubator for small-scale manufacturers • Revitalisation and infrastructure upgrading of the Lebowaqomo industrial area • Zebediela plaza development support: facilitate and negotiate inclusion of informal retail facilities and identification of appropriate retail, services and entertainment facilities
THRUST 2: RESTRUCTURING AND DIVERSIFYING THE INFORMAL ECONOMY
<ul style="list-style-type: none"> • Develop a mentorship programme through a database and network of experienced business mentors to support local emerging entrepreneurs within the relevant field • Establish a local youth drop-in and development centre with a computer centre, mobile education programme and entrepreneurial & small business development support
THRUST 3: SUSTAINABLE AGRICULTURAL EXPANSION AND VALUE ADDING DEVELOPMENT
<ul style="list-style-type: none"> • Attain funding and establish the Zebediela orange juice extraction and packaging plant • Attain funding and establish goat meat and milk slaughtering, processing, packaging and marketing plant • Develop a multi-purpose agricultural centre and distribution depot at the underutilised showground's • Roll-out and expand existing Moringa production and investigate beneficiation potential to produce health/medicinal and beauty products • Develop fish farms at dams and in the irrigation canals
THRUST 4: MINING SECTOR GROWTH AND MAXIMISATION ALONG VALUE-CHAINS
<ul style="list-style-type: none"> • Establish a skills harvesting academy/ 'mining school' to transfer applicable artisan and engineering skills to the local community • Attain funding and establish small scale excavation and tile manufacturing of slate in Mafefe • Formalise illegal sand mining and assist in obtaining permits • Establish a Dilokong mining corridor producers forum or joint working group
THRUST 5: TOURISM DEVELOPMENT, AND SUSTAINABLE TOWN REVITALISATION
<ul style="list-style-type: none"> • Attain funding and establish farm-based tourism & recreation opportunities linked to Zebediela citrus estate • Establish accommodation and day visitor facilities at the MEC residence • Revitalise Mafefe village camp and identify sustainable future uses such as youth camps and promotion of packaged deals • Undertake an 'invest in Lepelle-Nkumpi' campaign through promotional brochures • Trash-for-cash

Investment and Marketing Plan was developed to promote investment opportunities as proposed in the LED strategy. The reviewed LED Strategy is further aligned to the Limpopo Employment, Growth and Development Plan and other local and National development trends and tools.

4. RISK MANAGEMENT AND FRAUD PREVENTION

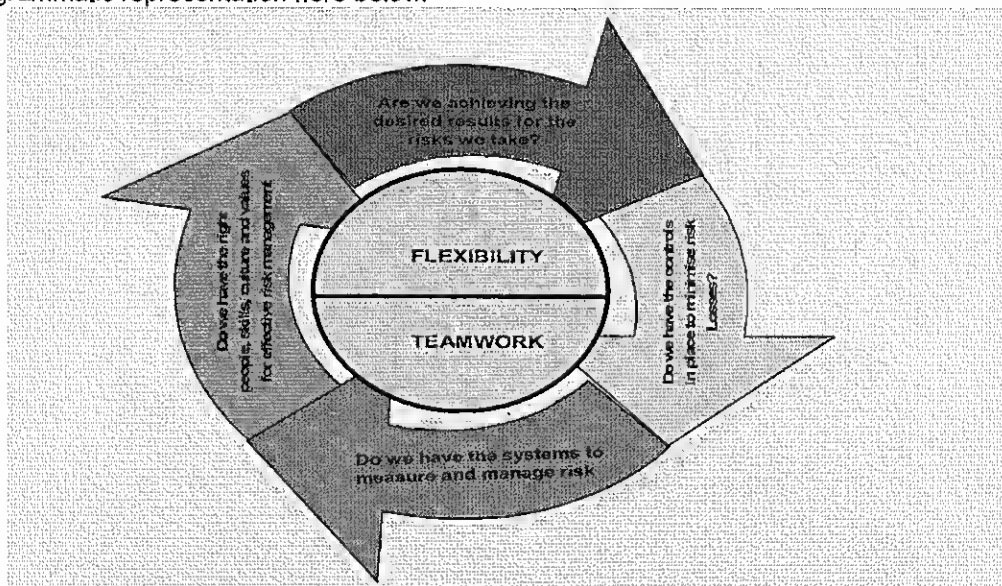

4.1. RISK MANAGEMENT

The total process of risk management within the Municipality, which includes the related systems of internal control, is the responsibility of the Municipal Manager as the Accounting Officer. The internal audit function will provide independent assurance of the effectiveness of risk management and internal control processes.

Municipal council has approved a reviewed Risk Management Strategy in April 2011. A Risk Officer is appointed to operationalise the risk management strategy.

4.2. MUNICIPAL RISKS IDENTIFICATION

The risk management strategy addresses the four service delivery risks depicted by the diagrammatic representation here below:

4.3. ANTI-CORRUPTION AND FRAUD PREVENTION PLAN

Council has also approved a reviewed fraud prevention plan in June 2012. It covers issues around fraud risk management; proactive defence of assets; and fraud response plan.

Implementation of the following initiatives will contribute significantly to the reduction of corporate crime:

- Data interrogation
- Fraud awareness training
- Fraud tip-off reporting hot-line
- Forensic controls
- Crime database

A Fraud and Corruption Hotline was relaunched in November 2010 to provide tool to anybody who might have to report fraud and corruption activities taking place in the municipality. The Hotline is managed by the District Municipality with whom regular campaigns on the subject are conducted on an ongoing basis.

5. SPATIAL DEVELOPMENT FRAMEWORK

One of the requirements of the Municipal Systems Act, 2000 is that municipal IDP's should contain a Spatial Development Framework (SDF). A reviewed SDF was approved by council in 2008 financial year.

PURPOSE OF THE SDF

The SDF should is to inform the content of the LUMS, and

- ♦ be a strategic, indicative and flexible forward planning tool to guide planning and decisions on land development;
- ♦ develop an argument or approach to the development of the area of jurisdiction which is clear enough to allow decision-makers to deal with the unexpected;
- ♦ develop a spatial logic which guides private sector investment;
- ♦ ensure the social, economic and environmental sustainability of the area;
- ♦ establish priorities for public sector development and investment; and
- ♦ identify spatial priorities and places where public-private partnerships are a possibility.

LEBOWAKGOMO DISTRICT GROWTH POINT

This node was identified as a District Growth Point in the Limpopo Spatial Rationale, 2002. Lebowakgomo is the economic hub of the municipal area. This node is constituted by following centres: Lebowakgomo Business Centre, Lebowakgomo Township and Middlekop. Lebowakgomo was proclaimed in terms of the Regulations for the Administration and Control of Townships, 1962 (Proc. No. R293 of 1962) and used to serve as the capital of the former Lebowa government. It has a population of approximately 34 224 people. A Local Spatial Development Plan has been developed in 2012/13 for the area to guide specific forms and locations of private and public sector investments into the area

MAGATLE MUNICIPAL GROWTH POINT

The area is composed of the two neighbouring villages of Magatle and Mapatjakeng. This growth point has a population of approximately 9665. It has 1614 households and occupies an area of 583hectares. The municipality has to invest on this area and development should be located here as the area is a municipality growth point. Magatle has schools, a police station, a vital registration office and social security offices, among others. A settlement plan was developed by the District for the area in order to guide forms and locations of private and public sector investments in the area.

RURAL SETTLEMENTS

The rural area is predominantly an extensive commercial farming area where mixed crop production is the main agricultural practice. The municipality has approximately 93 settlements, which are mostly rural.

STRATEGIC DEVELOPMENT AREAS (SDA's)

Spatial planning should guide the municipality in terms of location of public investment, particularly capital expenditure. The manner in which these programmes are implemented should support the hierarchy of settlements. And in time normalise the existing spatial patterns.

For this reason the Municipality's 2006 SDF identified 4 SDA's which will be the main focus areas for future development residential areas. These areas are actively supported, promoted and development facilitated through;

- Provision of bulk infrastructure
- Active marketing of the areas
- Provision of incentives schemes from prospective developers and
- Compilation of detailed local framework or land use plans for each one of them.

TABLE.44: SPATIAL OBJECTIVES OF THE SDF

	SPATIAL OBJECTIVE	STRATEGIES
1	The establishment of an optimal and functional spatial pattern for the municipal area over time.	Develop settlements in accordance with their development potential. The level of investment in a settlement/settlement area for the provision of housing, economic development (e.g. LED projects); social services (e.g. clinics, schools, etc), physical infrastructure (e.g. level of services), institutional infrastructure (e.g. police stations, municipal offices), etc. should be done in accordance with the development potential of such a settlement/ settlement area.
2	The establishment of a spatial pattern to provide a framework for the provision of social facilities and physical infrastructure on a cost effective basis and to provide a sound basis for economic growth to increase income and employment in both the formal and informal sectors.	Utilise the hierarchy of settlements as defined in the Spatial Development Framework and the Proposed Norms and Standards for the Provision of Community Facilities and Physical Infrastructure for different settlements.
3	Establish sustainable settlements that are able to generate economic activities and create jobs for their residents.	Nodal points with development potential in rural areas should receive priority attention in terms of providing a higher level of community facilities and physical infrastructure.
4	Areas currently utilised or earmarked/identified as areas with potential for specific utilisation in future, e.g. areas for mining, agricultural development, tourism, trade and industry, residential development (see Spatial Maps), should be protected from any development that will sterilize or negatively impact on existing and future utilisation of such areas for that specific use.	No new land development will be allowed in areas that are utilised or earmarked/identified as areas with potential for specific utilisation (e.g. areas for mining, agricultural development, tourism, trade and industry, residential development) in future without a proper motivation A Land Use Management System should allow for partnerships with Traditional Authorities to be forged.
5	Increase residential densities to achieve a more compact "urban" structure to achieve specific threshold values in population to provide for higher levels of social, physical, institutional and economic services.	Reduced residential erf sizes for new housing projects should be negotiated with rural communities. Existing low density residential areas can be densified by means of infill planning. New land development should be concentrated in development nodes and priority should be given to development nodes when new housing projects are allocated. This should accommodate rural life styles like backyard ploughing fields and livestock enclosures
6	Illegal occupation (invasion) of land and the allocation of informal residential sites should be discouraged.	A process should be put in place whereby traditional authorities should request the local authority A collaborative system between the two is required to ensure elimination and management of illegal land occupation

LAND USE MANAGEMENT SCHEME

The municipality has approved LUMS in the 2007/8 financial year. This is a tighter and operational document of the strategies as set out by the SDF and with the objectives of dealing with the general conditions of land uses.

6. INFRASTRUCTURE DEVELOPMENT

6.1. INFRASTRUCTURE DEVELOPMENT PLAN

There is a very huge infrastructure development backlog in the municipality. And previous developments were not considerate to issues of mass and bulk infrastructure services. The municipality has in 2011/2012 financial year started with a programme to develop a Master Plan for engineering and infrastructure development.

6.2. STORM WATER CONTROL PLAN

The area of Lepelle- Nkumpi has a natural physical landscaping of mountains and slopes. This therefore puts it in a rather more vulnerable condition to floods strikes, especially in the low lying areas.

A storm water control plan has just been adopted by council in the past financial year 2008/9 and it proposes for prioritisation of the two high risk areas around Mathibela and Lebowaqomo.

6.3 HOUSING PLAN

Municipality has no housing plan. However, in line with the Outcome 8 of the Presidential Outcomes, housing development is approached from the view that it is an important tool that must be used to grow local economy and further create job opportunities for the poor. The municipality has planned to develop a housing plan in the near future to deal with the housing problems.

6.4. INTEGRATED WASTE MANAGEMENT PLAN

6.4.1 Implementing Waste Management Services In L-NLM

Currently, the only domestic / general waste collection services that exist in the Lepelle Nkumpi municipal area are in place in Lebowaqomo, Mathibela, Rakgwatha, Makweng and Matome. For the majority of the Lepelle Nkumpi municipal area, no waste collection services are provided.

6.4.2 Future Plans

The following are the future plans of the municipality:

- Develop plan to implement waste management services
- Initiate public information, consultation and awareness creation regarding waste management services
- Promotion of inter-governmental departments dialogue and collaboration to address Health Care and Hazardous Waste matters
- Promulgation of by-laws to facilitate implementation of waste management services
- Identify markets for promoting recycling and composting projects
- Initiate service costs for various service points after consultation process

This IDP strives to attain 50% domestic collection by 2016 and is intend to expand waste collection to three more villages (Moletlane, Mamaolo and Seleteng) in the 2013/14 financial year. District has started to construct a landfill site at Lenteng village that will absorb the expansion of waste removal in the municipality.

7. INTEGRATED ENVIRONMENTAL MANAGEMENT PLAN

The municipality has adopted an IEMP during the 2009/10 financial year. The plan aims to address the following, among others;

- Identify environmental impact, issues, risk and threats.
- Develop measures and strategies to minimize, mitigate and manage these impact, risk and threats.

7.1. ENVIRONMENTAL KEY ISSUES

The following key issues that require attention of the municipality and all development activities are identified;

- Agricultural -crop and livestock- farming and wildlife conservation practices.
- Commissioning of new mining activities.
- Overgrazing -that leads to vegetation composition imbalances and soil erosion.
- Deforestation due to chopping of trees for firewood and poor affordability to access electricity may lead to loss of habitat and sensitive species.
- Shortage of water due to lack of major rivers and poor rainfall.
- Poor water quality due to high concentration of total dissolved solid (TDS) and nitrates.
- Urban sprawl, indiscriminate change of land uses and unplanned settlements.
- Uncontrolled veld fires.
- Air quality threatened by closed asbestos mines in the east.
- Poaching that threatens sensitive and endangered species.
- Loss of biodiversity due to heavy degradation by in places of cultivation, mining and urbanization and as a result of invasion of alien vegetation and indigenous microphyllous trees.
- Climate change.

8. DISASTER MANAGEMENT PLAN

A Disaster Management Plan was developed in 2012/13 to deal with prevention and mitigation or relief of disaster incidents.

Veld fires, floods, deforestation, potential agricultural diseases, drought and epidemics are the highest priority threats.

Poverty and lack of basic services are the main contributors to the high vulnerability of people and are higher priorities for all municipalities in Capricorn. Appropriate poverty alleviation programmes, health, water, road infrastructure, telecommunication programme are required to reduce the vulnerability status of communities and to help build community resilience.

9. FINANCIAL PLAN

9.1. INTRODUCTION

The IDP and budget review were integrated throughout the process and the municipal budget is informed by the identified programs and expressed needs of the community and further being responsive to national imperatives and mandate.

9.2. 2013/14 BUDGET

The detailed capital and operational budgets for the 2013-16 MTREF are attached as per Annexure.

9.3. TARIFF BASE

A detailed tariff structure reviewed for 2013/14 is attached hereto as an Annexure.
